

# ANYWHERE ADVENTURE FINDS YOU

Since 1990, Sea to Summit has been your ally in every adventure—whether that's on the deck of your sailboat or on a high-altitude expedition.

Designed to be the perfect balance of clever, packable and light, our award-winning products encourage self-reliance on any terrain.

Our love of the outdoors and our relentless pursuit of design perfection is what drives us. That's why you can find our gear in the backpacks of explorers everywhere—from our home in Western Australia to the snowy mountains of Europe and the vast trails of North America.

# FOUNDER STORY

In 1983, Sea to Summit's Founder, Roland Tyson was just 17 years old when he started making outdoor gear on an old industrial sewing machine.

As a young outdoor enthusiast, Roland had equal passion and talent for creating cutting-edge outdoor equipment for his own adventures and then for other Australian adventurers. By 1991, after Roland outfitted a 1126+ kilometre and 8848 metre elevation first ascent of Mt. Everest, Sea to Summit was born.

Roland's unrelenting drive to design the best, lightest and most durable outdoor gear would take him further into Australia's remote outback and eventually into the Himalayas where he could put his inventions to the ultimate test. In 1993, Penny Sanderson joined Roland who had spent six years at Australian Geographic and shared an equal passion for exploration and innovation. Together, they embarked on outdoor adventures, testing their products and improving on their designs.

In 2022, Sea to Summit transitioned to a solid private equity backed business when Five V, the Australian investment firm and certified B-Corporation became the majority shareholder. Roland and Penny will still play a fundamental role as Sea to Summit executes its growth plans in areas such as e-commerce, supply chain and sustainability.

A person wearing a light-colored jacket, grey leggings, and a wide-brimmed hat stands on a grassy hillside, looking out over a mountain range at sunset. The sun is low on the horizon, creating a warm, golden glow. A tent is pitched nearby on the left. The scene is filled with tall grasses and shrubs in the foreground.

# SUSTAINABILITY

Our love of the outdoors is what drives innovation, exploration and adventure. It also compels us to make meaningful steps towards improving our environmental and social impact, while being transparent about our progress and our challenges along the way.

## Climate

In continuing our commitment to better understand how our actions as a brand impacts our global environment, we have taken our first steps in estimating our Scope 1, 2 and 3 carbon emissions.

We acknowledge this is a challenging area to navigate and we're working on better data access to refine our estimate and more accurately identify key reduction areas.

## Giving Back

We support non-profits that preserve the places we play and that enable more people to get out and enjoy nature.

We've had decade-plus relationships with many organisations; others are new to us—all are positively impacting people and the planet.

These are some of the organisations we currently support:

## We Care For Our People

It's important to us that we take care of the people who work for Sea to Summit and the people who make our products.

We are committed to fair labour practices in our supply chain and our factory code of conduct aligns with the internationally recognised SA8000 Social Accountability Labour Standard.

T1 SUPPLIERS THIRD-PARTY AUDITED TO A CSR STANDARD

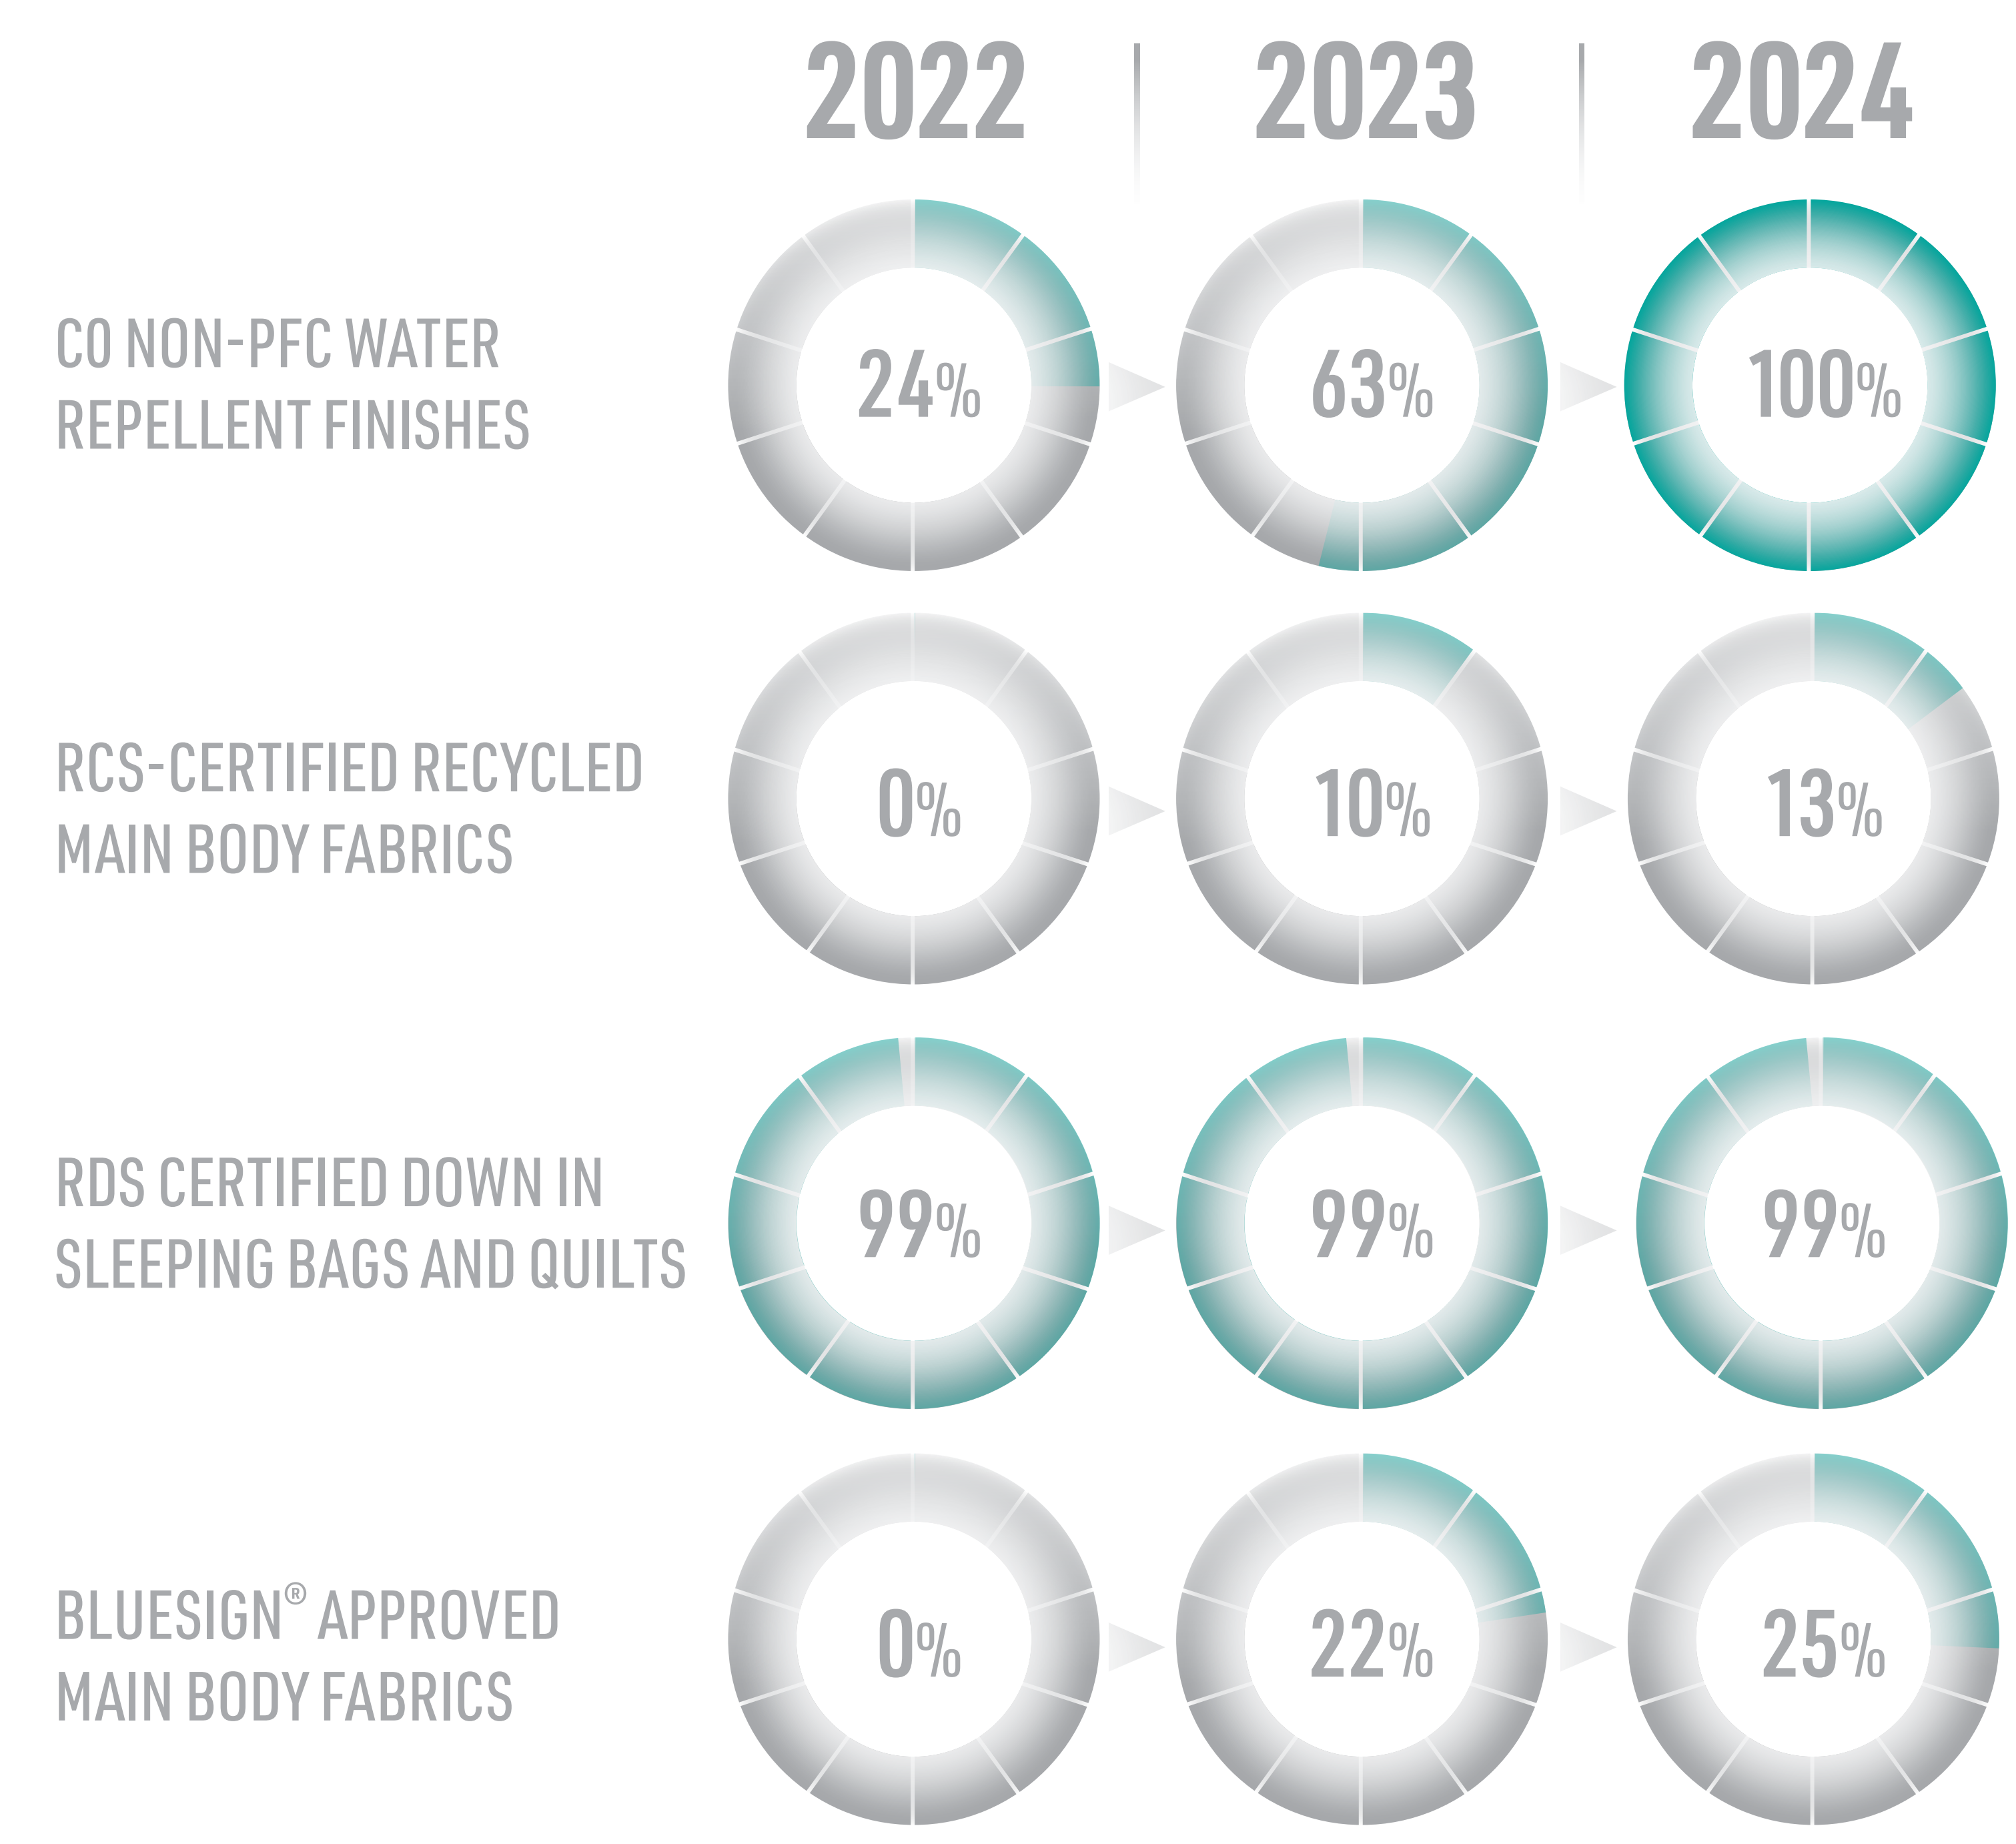

## Product Design

In striving to reduce the environmental impact of our products, we are increasing the use of traceable recycled materials, choosing better chemistry through our commitment to bluesign® APPROVED fabrics and transitioning to CO non-PFC water repellent finishes.

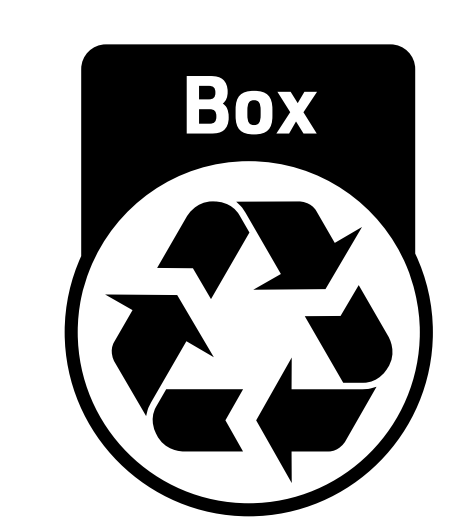

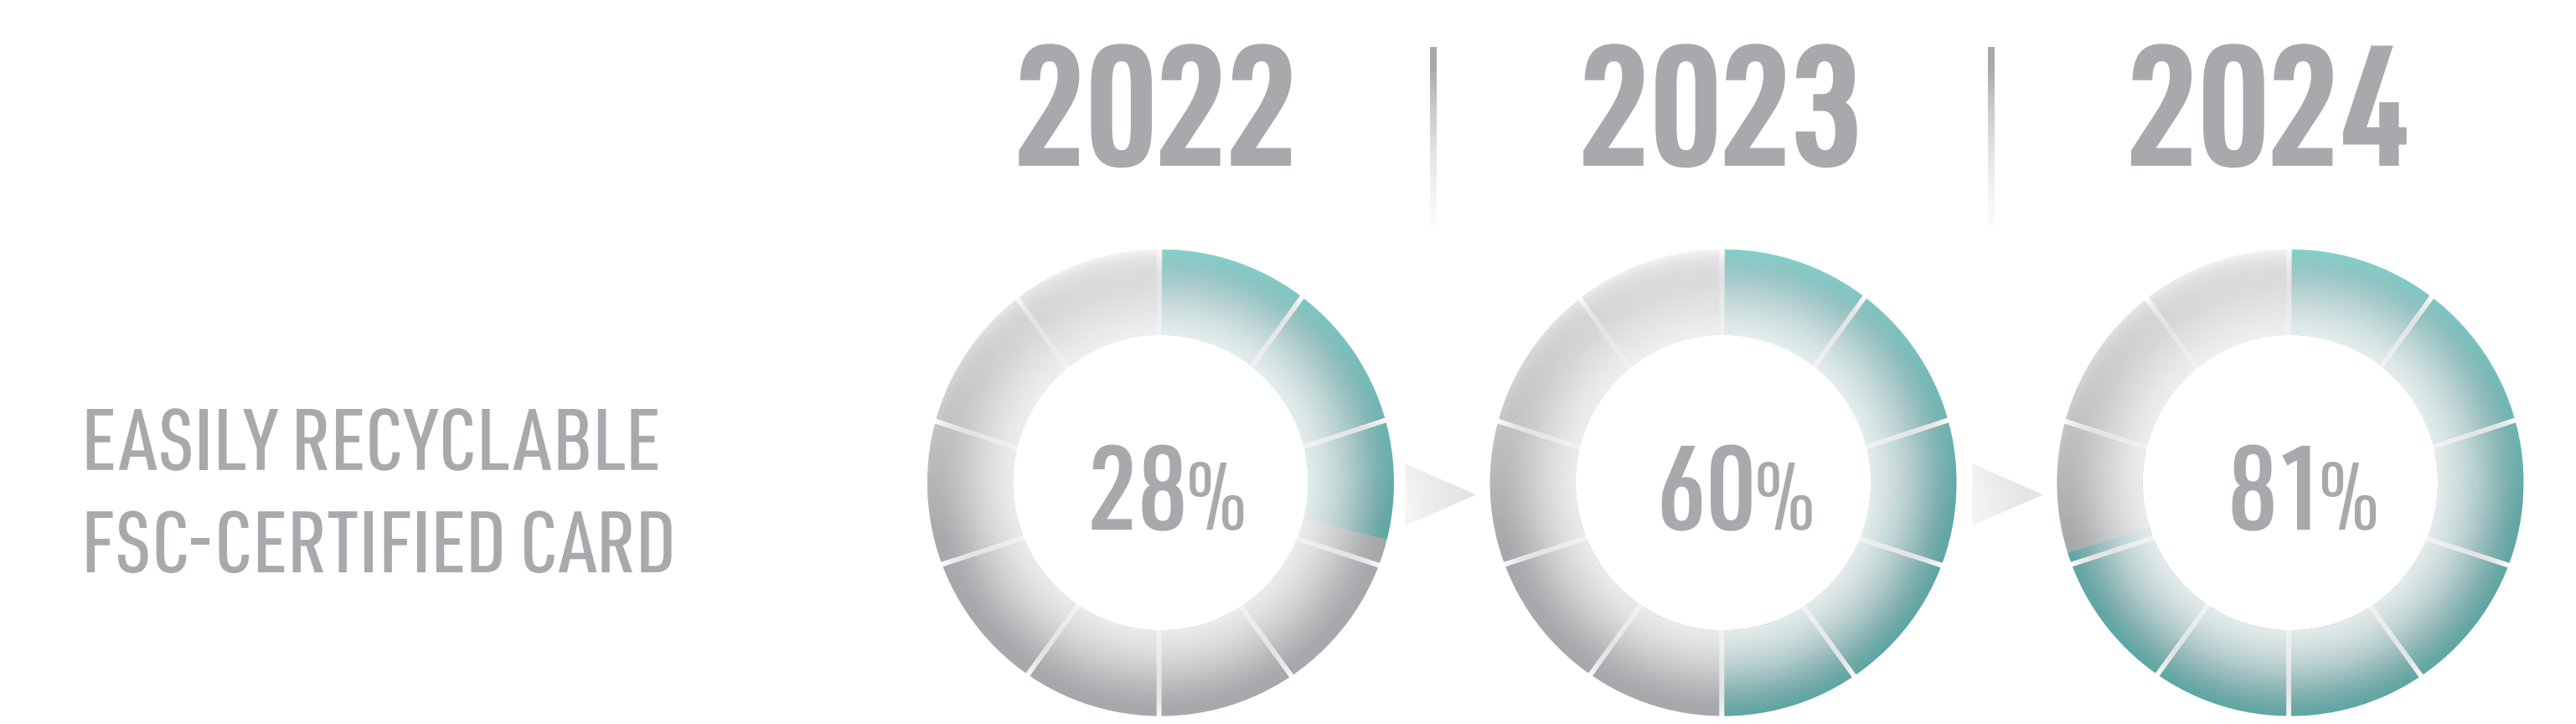

Sea to Summit is certified to the Recycled Claim Standard (RCS) and the Responsible Down Standard (RDS). In 2024, our product line includes:

## Recyclable Packaging

Launching with Storage in 2023, we are continuing to transition our packaging to responsibly sourced card that's easily recyclable throughout our new and updated S24 products.

We are also reducing our use of polybags and maximising carton-efficiency by rolling out updated inner and outer cartons made from improved materials for better reuse.

# WARRANTIES

## Sea to Summit Guarantee

We stand behind our products and strive to exceed expectations.

For over 30 years, Sea to Summit has designed and built award-winning gear that's continuously tested in the Australian outback and demanding environments around the world.

We guarantee our products against manufacturing defects within a reasonable time from purchase—and we strive to keep the claim process straightforward.

Customer satisfaction is our ultimate priority. While we advocate, educate and promote simple care and maintenance to extend a product's usable life, in instances of a manufacturing defect we replace, repair, or provide credit for the item. This is assessed on an individual, case-by-case basis.

Put simply, we always do what we know is right to build products and relationships that last.

## What's Reasonable?

**Environmental Wear and Tear:** Our products are engineered using quality materials that are specific to the end-use. Normal wear and tear and the breakdown of materials due to age, use, or environmental conditions are not covered under our guarantee.

**Accidental Damage:** Damage due to improper use or care, accident, or negligence is not covered under our guarantee. However, we always aim to exceed expectations, so we'll look to assist with a functional repair whenever possible.

**Limited Duration:** Due to their very nature, some of our products are intended for use in situations which result in higher rates of wear and tear, which is why they have a limited warranty duration. This is clearly marked on the packaging and on our website, so customers know where they stand, and what to expect.

# WORKBOOK GUIDE

We want to make navigating this workbook as easy as possible. Here's how to make the most of our workbook.

# CONSUMER SEGMENTS

From gram conscious consumers prioritising ultra-lightweight gear to less extreme adventurers seeking products to support comfort and peace of mind in the outdoors, Sea to Summit caters to most adventure types, seasons, and modes of travel. While these consumer segments are informative reference points in understanding the industries key target audiences, our ranges have been inspired by but are not limited by these segments. Instead, our gear has been intentionally designed for seamless integration so consumers can easily mix and match products and ranges according to their needs.

## TRAILBLAZER

The Trailblazer prioritises packability, lightness, ingenuity, and dependability in product selection. Minimalism is a core value to allow for lightness, freedom, and mobility when adventuring.

## WAYFARER

Less extreme than the Trailblazer and not tied to a vehicle like the Navigator, the Wayfarer seeks durability and packability in their kitchen gear. Wayfarers prioritise quality kitchenware which is lightweight and dependable to allow for a frictionless adventure.

## NAVIGATOR

The Navigator is an omni-terrain explorer who often remains close to their vehicle throughout trips and values social adventures that are unique to being on the road. Packability, versatility, compactness, comfort, and storability are at the forefront of the Navigator's priorities in selecting gear.

# CAMP KITCHEN

DINNERWARE | COOKWARE | CLEAN UP | WATER TRANSPORT

# CAMP KITCHEN

Overlanders, thru-hikers,  
backpackers – invite your  
buds to your camp kitchen.

Your taste buds, that is.

## INNOVATIVE COOKWARE AND TABLEWARE

Our pots feature quality materials and innovative details to ignite your inner, outdoor gourmet. Pair them with our dinnerware – which doubles up as food prep products – and you have the basis of simple yet soul-satisfying camp meals.

## SUPPORTS LEAVE NO TRACE ETHICS

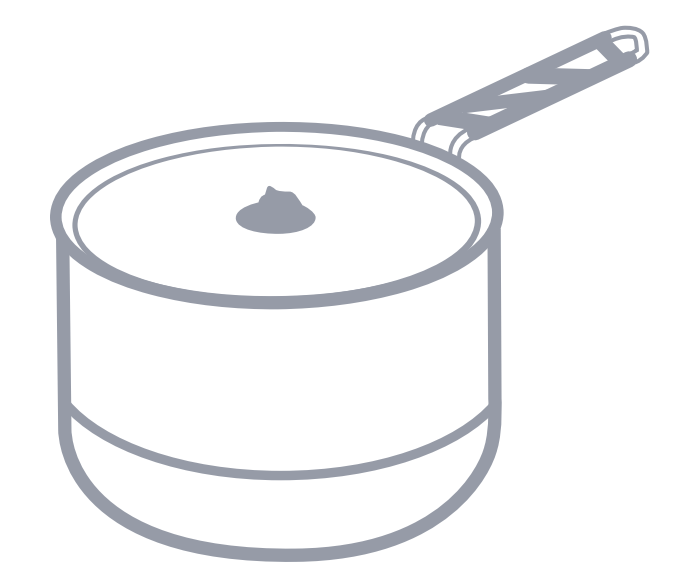

We're committed to Leave No Trace outdoor ethics. Our folding sinks and buckets make it easy to move and use water away from streams, while our clean-up kits and biodegradable soaps make food waste management simple and straightforward.

## FUNCTION-SPECIFIC MATERIALS

Our durable and innovative camp kitchen range is engineered for all outdoor adventures. Our clever functionality elevates them far beyond 'plastic camp tableware', to part and parcel of an integrated food preparation system.

**NEW**

HARD ANODISED  
ALUMINIUM

DURABLE HARD-ANODISED AIRCRAFT GRADE ALUMINIUM COMBINED WITH A SLEEK-YET-STRONG SHAPE TO CREATE AN EXTREMELY LIGHTWEIGHT UTENSIL

## FRONTIER ALUMINIUM CUTLERY

Frontier Cutlery uses durable hard-anodised aircraft grade aluminium combined with a sleek-yet-strong shape to create an extremely lightweight utensil.

By hard anodising the aluminium, it forms an 'exoskeleton' so the shape of the utensils can be slimmer and lighter. This hardened shell also encapsulates the aluminium, which eliminates the risk of alloy leaching into food and creates a smooth finish feel for comfortable eating.

All Frontier cutlery sets come with a carabiner that attaches the utensils for clean, efficient storage.

### FEATURES:

- Ultralight and super-strong aircraft aluminium alloy utensil
- Smooth, matte finish for comfortable mouth feel
- Tough and lightweight for lifelong use
- Comes with a mini carabiner to keep together
- Stacks efficiently with other Frontier cutlery pieces

**COMPOSITION:**  
100% aluminium

## PASSAGE INSULATED MUG

Our lightweight and easy-to-clean Passage Insulated Mug keeps your drinks hot or cold whilst maintaining a cool-touch grip. The snug-fitting and self-draining lid allows drip-free sipping for ease and enjoyment. The perfect addition to your camp kitchen for everyday use.

### FEATURES:

- 475ml large volume capacity
- Insulation keeps drinks warmer or colder for longer
- Sipping lid with secure seal
- Streamlined ergonomic shape – no hard-to-pack handle
- Odour and stain resistant
- Strong and durable food-grade glass-reinforced polypropylene inner mug
- Measurement increments on the inside
- BPA-free and dishwasher safe
- Tapered design means it can be stacked with other cups for more compact storage

### COMPOSITION:

BPA-free, food grade material which is microwaveable and dishwasher safe

## PASSAGE CUP

Made from lightweight and durable glass-reinforced polypropylene, our Passage Cups are cleverly designed to nest inside Passage Bowls and Frontier Pots. Featuring Cool Grip fins to reduce surface temperatures and heat transfer, enjoying a drink is safe and seamless. The Passage Cup also features an easy-sipping silicone lid for functionality.

### FEATURES:

- 355ml volume capacity
- Easy sipping silicone lid that folds inside the mug for compact packing
- Cool Grip, fluted ribbed walls for increased protection from hot or cold, for a more comfortable grip
- Graded volumetric scale for easy measurement
- Stacks perfectly with other Passage Cups, and nests within Passage Bowls and Frontier Pots

### COMPOSITION:

BPA-free, food grade material which is microwaveable and dishwasher safe

## PASSAGE PLATE

Our Passage Plate has raised edges to keep your food on the plate and off the ground. BPA-free and dishwasher safe, the Passage Plate nests with other Passage Kitchenware for the ultimate space-saving and efficient camp kitchen.

### FEATURES:

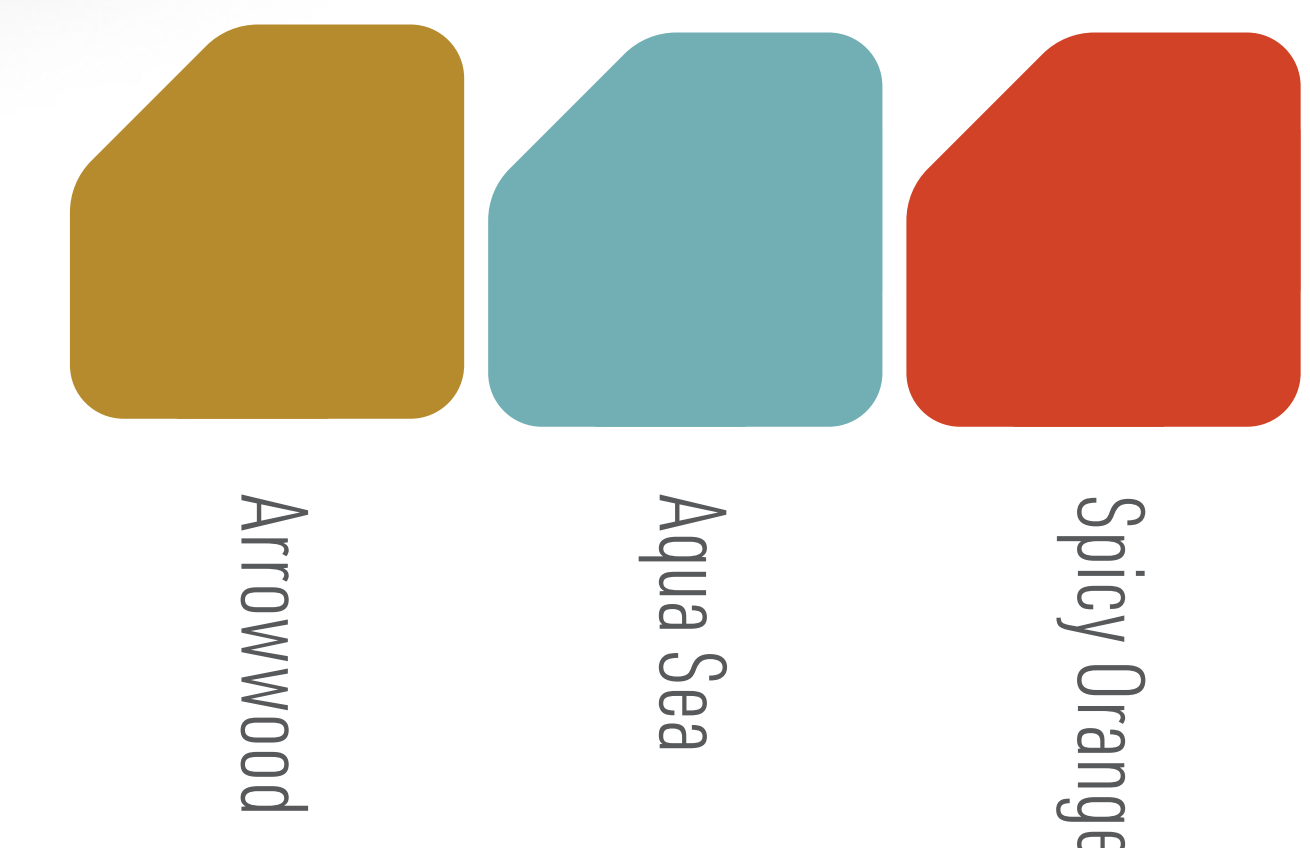

- 1020ml large volume capacity
- Catch every last morsel: the curvature of the bowls perfectly complements Sea to Summit spoons, for ease of scraping the edges clean
- Hard-wearing and cut resistant food-grade glass-reinforced polypropylene
- BPA-free and dishwasher safe
- Cool Grip, fluted ribbed walls for increased protection from extremes of temperature, for a more comfortable grip

### COMPOSITION:

Glass-reinforced Polypropylene

6 PIECE SET INCLUDES

- 10L Kitchen Sink
- Double sided Wash Cloth
- DryLite Dish Towel
- Nylon Zip Pouch

### ULTRA-SIL KITCHEN SINK

Small enough to fit in a pocket and light enough to barely leave a trace on a set of scales.

SIZES 10L

**30D ULTRA-SIL**

### KITCHEN SINK

Now you can take everything on your next camping adventure—including a collapsible Kitchen Sink that really works!

#### FEATURES

- Stainless steel stiffening ring prevents sink from tipping over or collapsing when full
- For use with hot water (up to 60°C) and detergent

SIZES 5L / 10L / 20L

**70D WATERPROOF FABRIC**

**30D ULTRA-SIL**

### ULTRA-SIL FOLDING BUCKET

Ultra-lightweight collapsible bucket for carrying water.

#### FEATURES

- 10L capacity—ideal for transporting water back to camp
- Not freestanding

SIZES 10L

### TRASH DRY SACK

The outdoors is not a garbage can. Pack out your rubbish cleanly and neatly with this specially designed roll-top dry sack.

#### FEATURES

- Waterproof, non-wicking roll-top closure for mess-free carrying
- Line with (biodegradable) garbage bag for easy cleaning and disposal
- Minimum garbage bag size: 40 x 60cm

SIZES: 10L

**70D WATERPROOF FABRIC**

**420D WATERPROOF FABRIC**

### FOLDING BUCKET

Completely collapsible lightweight yet durable free-standing bucket.

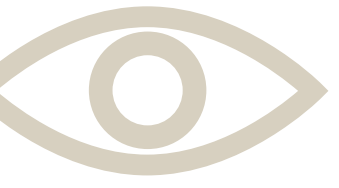

#### FEATURES

- Free-standing on level surfaces
- Additional handle on base for easy pouring
- Fully welded construction

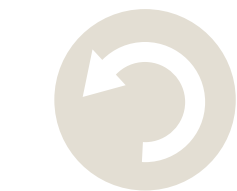

SIZES: 10L / 20L

FILL HANDLE

ADJUSTABLE WEBBING STRAP SYSTEM

## WATERCELL X

Ditch the awkward jerry-can or plastic water container and embrace the Watercell X, your durable soft-sided water storage solution for any adventure.

We've provided multiple lash, carry and hang options, a cap that lets you fine-tune flow-control and a baffled design that makes for easy packing when full.

The wide-mouth opening is easy to fill and uses a standard thread to make it compatible with most common water filtration systems. And when not in use it folds away to a minimal size that barely takes up any room in your pack, kayak or vehicle.

### FEATURES

- Strong RF-welded 3D shape with internal baffle for ease of use and compact packing

SIZES 4L / 6L / 10L / 20L

# SLEEP

SLEEPING BAGS | LINERS | SLEEPING MATS | PILLOWS

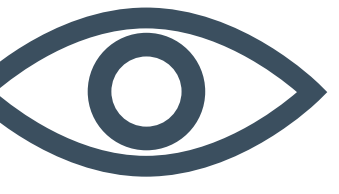

# OUR SLEEP RANGE

Sea to Summit's sleep range creates an integrated sleep system to offer a one stop shop for consumers to find innovatively designed gear suited to a multitude of climates and conditions.

From extreme adventures to weekend getaways, our selection of sleeping gear puts durability, compactness, comfort, temperature regulation and ease-of-use at the forefront.

## WOMEN'S SPECIFIC SLEEP SYSTEMS

Sea to Summit offers the broadest range of women's specific sleeping bags and mats on the market. Designed with added insulation and more room to move, this range of bags and mats are engineered to complement the way women typically sleep, while removing unnecessary weight and bulk.

The extra insulation in core zones increases overall warmth for areas where women typically feel the cold. With a narrower design in the shoulder area as well as increased leg and hip room for side sleepers, women's specific sleep systems provide extra comfort and warmth.

## ENGINEERED FOR WOMEN

### FREE FLOW ZIP SYSTEM

Our Free Flow Zip System offers greater versatility and comfort. Catering to a range of temperatures, the Free Flow Zip System enables sleeping bags to be enjoyed in a variety of ways.

This feature puts the consumer at the forefront to allow them flexibility and freedom to find the most ideal configuration of their sleeping bags to suit their needs and preferences.

## DOWN SLEEPING BAGS

Down remains the best insulation for sleeping bags with an ideal warmth to weight ratio. Our down sleeping bags are the most durable, lasting a lifetime and offering comfort and warmth for a peace of mind and a better night's sleep in the outdoors.

## SLEEP SYSTEM INTEGRATION

Sea to Summit offers the ultimate sleep system best suited to a range of climates, conditions, and adventures. Whether exploring the Arctic or thru hiking, our sleep products can be mix and matched together for functional, versatile and multi-seasonal use.

Our range of temperature regulating, thermal boosting and lightweight liners can be paired with sleeping bags to cater to every outdoor adventure and across all consumer segments.

Zip coupling allows sleeping bags to be paired together and used in multiple configurations for added versatility and functionality. Our sleeping bags can also be used with our range of mats, pillows, and quilts so consumers can mix and match products to create their ultimate sleep system.

Our 650+ FILL power to 950+ FILL Power also offers added warmth, additional heat retention and optimal temperature regulation for confidence and comfort on any outdoor adventure.

# FREE FLOW

Freedom from head to toe  
(and everything in between)

What's in a name? And what's free flow?  
Let's break it down.

You're on the top of a summit in an Arctic climate.  
You're sleeping under the stars on a balmy summer night.  
You're at a campsite sitting around a fire and exposed to  
the elements of a cool winter breeze.

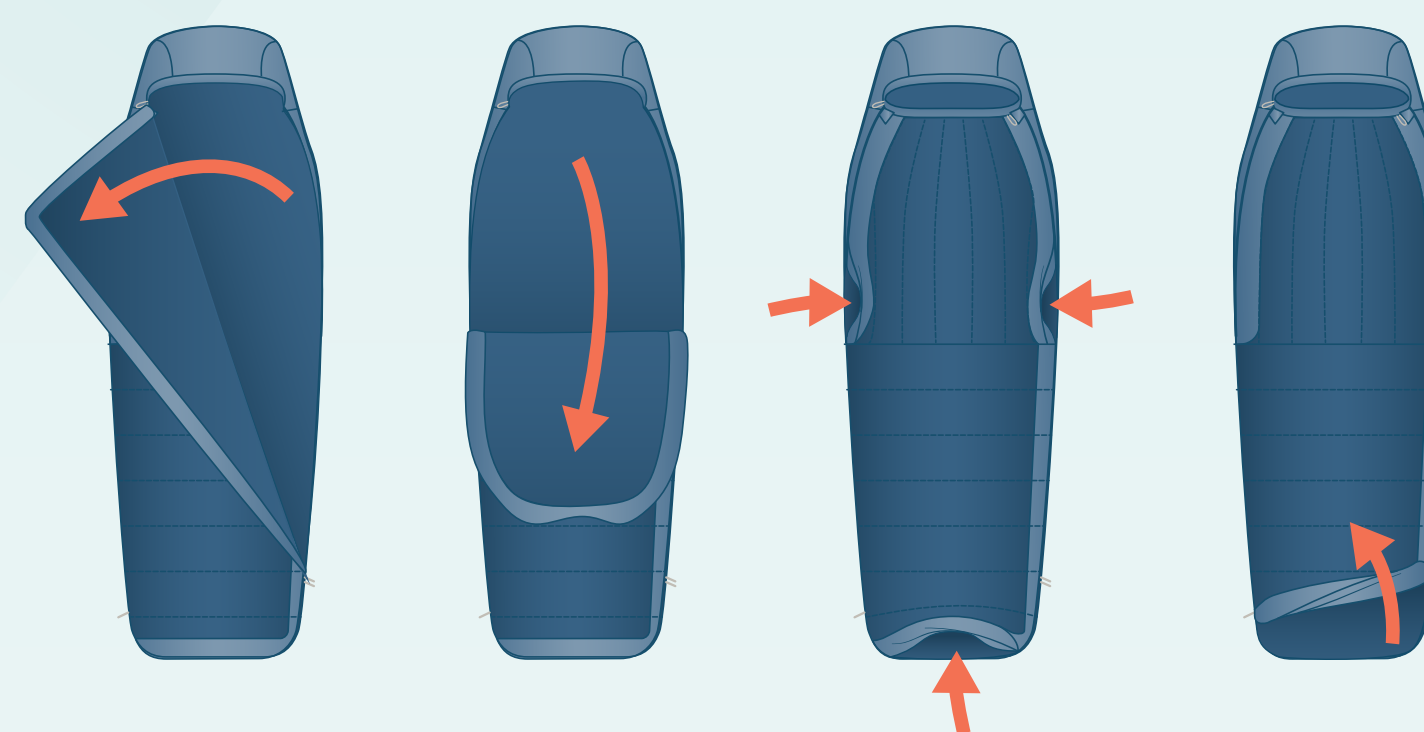

Wherever your adventure has taken you, there's one thing  
on your mind: to experience the outdoors in freedom and  
comfort. And that's where the zip system you never knew  
you needed steps in.

## Adjust

to regulate  
temperature

With multiple zipper configurations,  
Sea to Summit's Free Flow lets you  
adjust your sleeping bag for multi  
seasonal functionality and effective  
climate control.

## Adapt

to the  
circumstances

With the option to enjoy your sleeping  
bag in three configurations including a  
quilt, two bags coupled together, or a  
standard set up, Sea to Summit's Free  
Flow offers versatility and flexibility.

## Action

your free flow  
experience

Take your sleeping bag to the next level  
and bring the comforts of home to any  
adventure. Whether you're pouring a  
morning brew or reading a book, you  
can stay warm and comfortable in your  
sleeping bag thanks to Free Flow.

# SLEEP

Sea to Summit:  
your one-stop sleep  
system shop

## A RESTED DEVELOPMENT – FROM THE GROUND UP

Sea to Summit innovations in sleeping mats have raised the bar for comfort, ingenuity, ease of use and - above all - reliability.

## VERSATILE SLEEPING BAGS – OPENING UP NEW POSSIBILITIES

Down or synthetic-insulated Comfort and Versatility sleeping bags: unparalleled ventilation, open-flat to form a quilt.

## REDEFINED SLEEPING BAG PACKABILITY

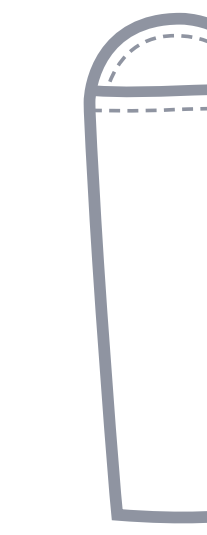

Light and packable sleeping bags feature high lofting down, featherweight shells and liner fabrics for minimal weight and tiny packed volume, yet maximum warmth and comfort.

## NOTHING COMES BETWEEN YOU AND YOUR SEA TO SUMMIT SLEEPING BAG

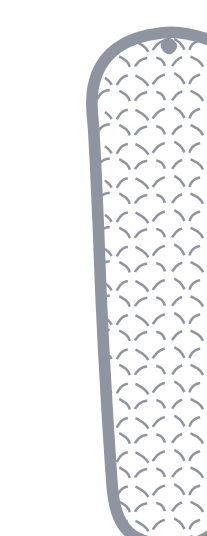

Except your liner, of course. Multiple options to keep you comfortable and protect your bag. And when you need the perfect pillow, we've got it.

# VENTURE

## SYNTHETIC

The Venture is perfect for women looking for warmth and ventilation in a technical sleeping bag designed for use in variable weather.

	Fill Power	Comfort	Lower Limit
Venture 1	N/A	0°C   32°F	-23°C   -9°F
Venture 2	N/A	-5°C   23°F	-31°C   -24°F

Temperature rated in accordance with ISO 23537-1:2022

### KEY FEATURES:

**30D DWR Nylon shell and 20D Nylon lining** are lightweight and very compressible fabrics.

**Proprietary blend of THERMOLITE®** insulation using soft microfibres and fine Denier hollow-core fibres for lightweight warmth and softness, with high loft and superior compressibility.

**Women's specific** tapered rectangular shape for more space and comfort than a traditional mummy bag.

# OUR SLEEPING BAGS FEATURE:

## QUALITY MATERIALS

### CO DWR

Non-PFC fabrics with CO treatment provide environmentally friendly resistance to condensation or other moisture.

### INDEPENDENTLY TESTED

All of our sleeping bags are independently tested to the EN/ISO standard for published Sleeping Bag warmths.

### TECHNICAL FABRICS

Are selected balancing weight, breathability, quietness, water resistance, and comfort for each model.

## DESIGN DETAILS

### ZIP PAIRING

Some bags are designed to be zipped together to create double sized sleeping sacks.

### INTERNAL POCKETS

Most bags have small zippered Pockets inside your bag provide space for valuables or small electronics in freezing conditions.

### YKK ZIPPERS

All bags have YKK zipper plows for smooth operation and reduced snagging on ultralight fabrics.

### QUILT LOCK SYSTEM

Every sleeping bag can combine with a quilt to increase warmth.

### ZIPPER DRAFT TUBES

Zip draft tubes with anti-snag prevent cold leaching in via the zipper opening.

### INTERNAL CORD TUNNELS

Our cord tunnels are buried within draft tubes to keep drawcords from irritating your face or neck.

## STORAGE SOLUTIONS

### CLEVER ADJUSTMENT

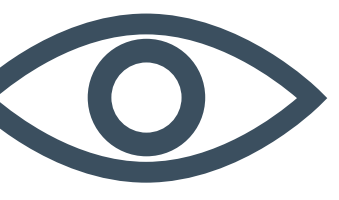

Hood and collar draft tubes all have dual adjusters, one on each side, for even cinching and maximum warmth.

### BETTER COMPRESSION

'Flip Top' compression sacks for easy storage and packing (except Tanami).

# OUR SLEEPING BAGS FEATURE:

## QUALITY MATERIALS

### RESPONSIBLE DOWN STANDARD (RDS)

The RDS is helping to shift the entire down and feather industry towards more humane animal rearing and handling practices. Overseen by the industry leading Textile Exchange, the RDS requires independent, third party assessments of all aspects of animal rearing and handling throughout the entire supply chain.

To find out more about how the RDS is improving animal welfare during down collection, please visit [responsibledown.org](http://responsibledown.org)

### ULTRA-DRY DOWN

Ultra-Dry Down is a Non-PFC, permanent polymer treatment that absorbs 30% less moisture and dries 60% quicker than untreated down.

### UNIQUE DOWN CERTIFICATE

Each bag includes a Batch Test Report from the International Down and Feather Laboratory to certify the loft and quality of down used.

### MINIMUM FILL RATING

All down used in our bags meet or exceed the published loft that is specified for that model.

## DESIGN DETAILS

### BESPOKE DESIGN

The baffle height in our bags is adjusted for each variant, so that the down insulation has the perfect amount of space in which to achieve maximum loft.

### DIFFERENTIAL CUT

A differentially cut shell design allows the down to expand outward for better lofting and also reduces the chance of cold spots.

### VERTICAL CHEST BAFFLES

Vertical Chest Baffles prevent down migration and cold spots, particularly for side sleepers.

### SIDE BLOCK BAFFLES

Side Block Baffles prevents down shifting around, and maintains warmth where it is needed.

# SLEEPING BAG LINERS

# LINERS

Our evolved collection has been created by industry leading designers to offer premium liners suited to a range of climates, conditions, and adventures. Our liners can be easily paired with Sea to Summit sleeping bags to create the ultimate sleep system.

With draw cords for added versatility, fitted cuts for maximum comfort and premium fabrics for moisture management, lightweight travels and temperature regulation, our liners take your sleep system to the next level.

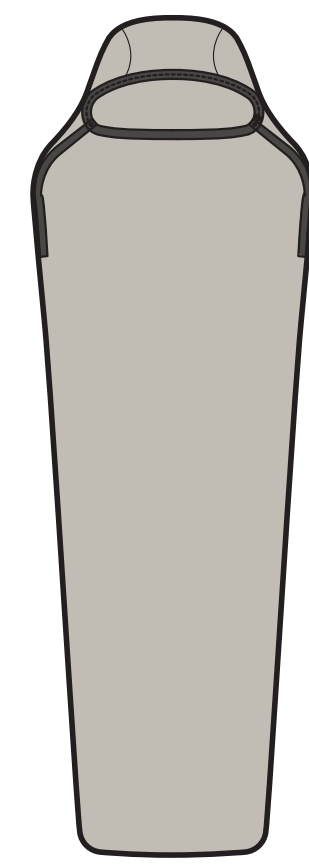

## LIGHTWEIGHT

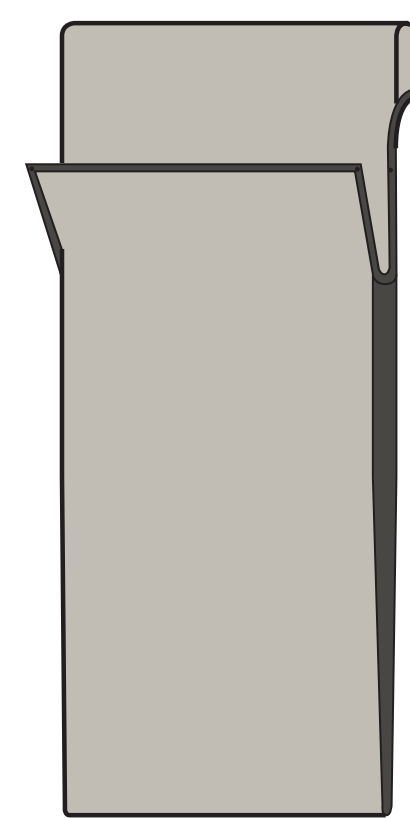

### LIGHTWEIGHT-PREMIUM SILK BLEND LINER

With a mummy shape, Thermolite-silk fabric and comfort stretch panels, the Silk-blend Liner offers a softer, more luxurious finish. The inclusion of Thermolite® yarn adds extra warmth to suit a variety of temperatures.

Silk Blend with Drawcord

**MUMMY:**  
Most weight- efficient shape

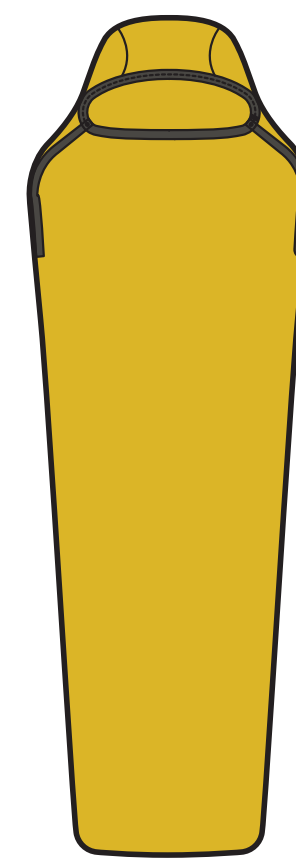

**TRAVELLER:**  
Designed for hostel use

## THERMAL BOOST

### WARM REACTOR LINER

With a mummy shape and Thermolite® Pro fabric, the Reactor Liner uses new infrared technology paired with comfortable stretch fabric to add warmth, versatility, and increased insulation.

Reactor with Drawcord

**MUMMY:**  
Most weight- efficient shape

### WARMER REACTOR EXTREME LINER

With the same features as our Reactor Liner, the Extreme addition offers extra warmth for an additional thermal boost.

Reactor Extreme with Drawcord

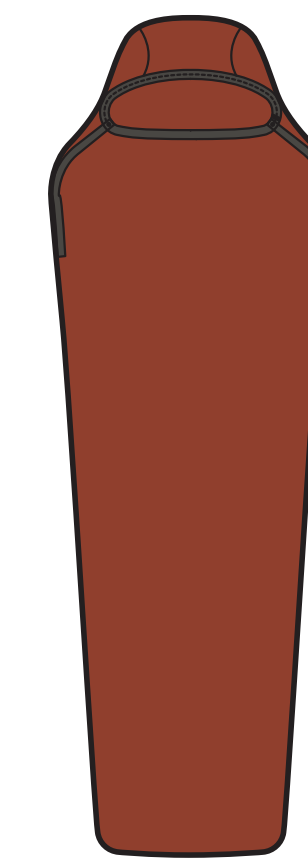

**MUMMY:**  
Most weight- efficient shape

### WARMEST REACTOR FLEECE LINER

With the same features as our Reactor Liner, the fleece offers the highest level of warmth for maximum thermal boost. The Reactor Fleece Liner is built from Thermolite® Fleece fabric with a grid pattern to maximize warm air retention.

Reactor Extreme with Drawcord

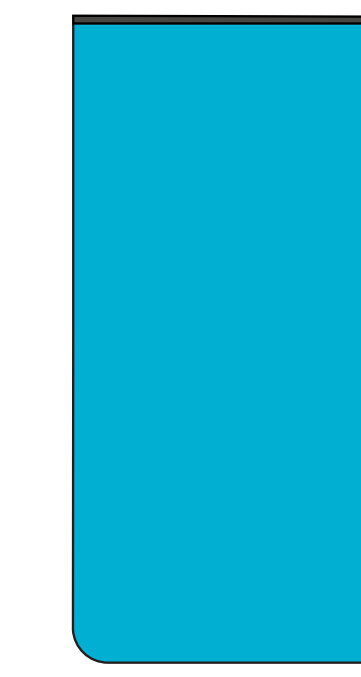

**MUMMY:**  
Most weight- efficient shape

## MOISTURE MANAGEMENT

### GOOD REGULATOR COMFORT BLEND LINER

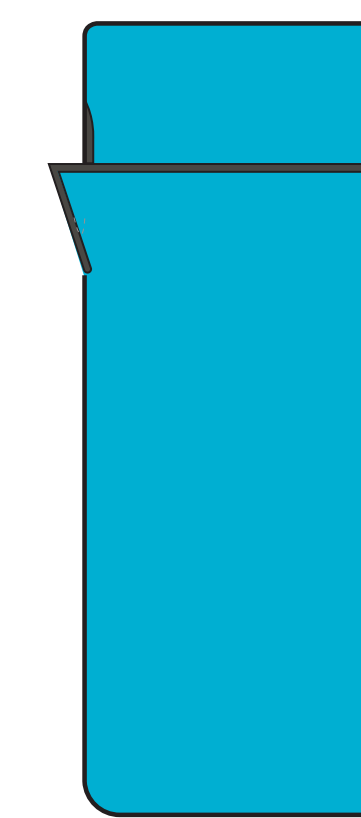

The Comfort Blend Liner features Tencel-Poly Blend and Tencel Fibers wick moisture management fabrics for comfort and warmth regulation. It is available in a standard rectangular and a traveller shape.

EcoBlend Standard

**STANDARD:**  
Most cost-effective shape

EcoBlend Traveller

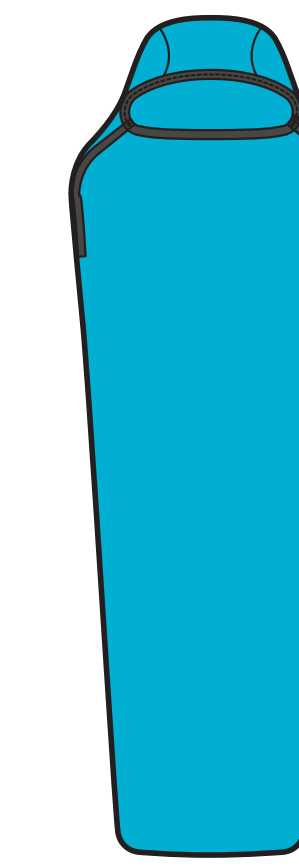

**TRAVELLER:**  
Designed for hostel use

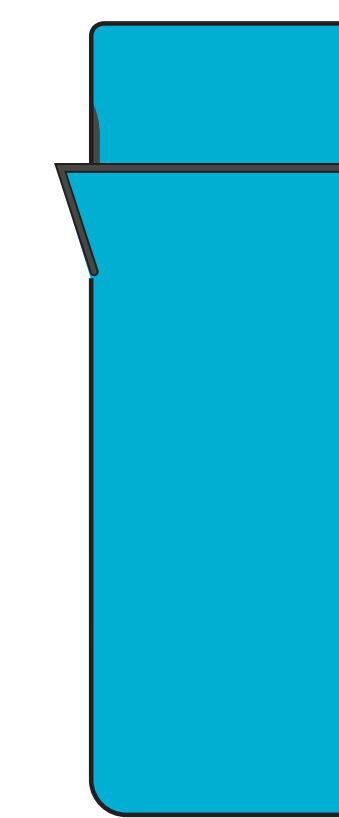

### BEST REGULATOR BREEZE LINER

The Breeze Liner is made of super stretchy, comfortable wicking COOLMAX® poly blend fabric for maximum moisture management. Available in a mummy with drawcord, mummy and traveller shapes.

Breeze with Drawcord

**MUMMY:**  
Most weight- efficient shape

**TRAVELLER:**  
Designed for hostel use

## PREMIUM FABRICS IN OUR UPDATED AND EVOLVED LINER RANGE

**THERMOLITE® PRO FEATURING ADDITIONAL FAR INFRARED TECHNOLOGY OFFERS AN EXTRA THERMAL BOOST FOR WARMTH AND COMFORT IN COLD CONDITIONS.**

THERMOLITE® PRO far infrared fibre technology is a lightweight, hollow fibre with special ceramic pigments that generate warmth for your body.

Liners made with FIR fibre are more efficient at absorbing the far infrared rays emitted by the body and reflecting them back at the wearer. This heat transfer by re-radiation effectively improves the body's heat retention.

This fibre is blended into the Reactor and Reactor Extreme Liners.

**THERMOLITE® ECOMADE IS A SUSTAINABLY MADE MATERIAL THAT OFFERS AN INSULATION EFFECT FOR AN ADDED THERMAL BOOST.**

Thermolite Ecomade employs the tried-and-tested performance of hollow-core Thermolite yarn and is made with 100% recycled resources.

Hollow core fibres trap air, provide insulation and wick moisture to the outside of the fabric where it can dry quickly. Plastic bottles are collected, cleaned, and ground up into flakes. They are then converted into chips, spun into fibre and yarn, and finally, woven into your liner.

This fibre is blended into the Reactor and Reactor Extreme Liners.

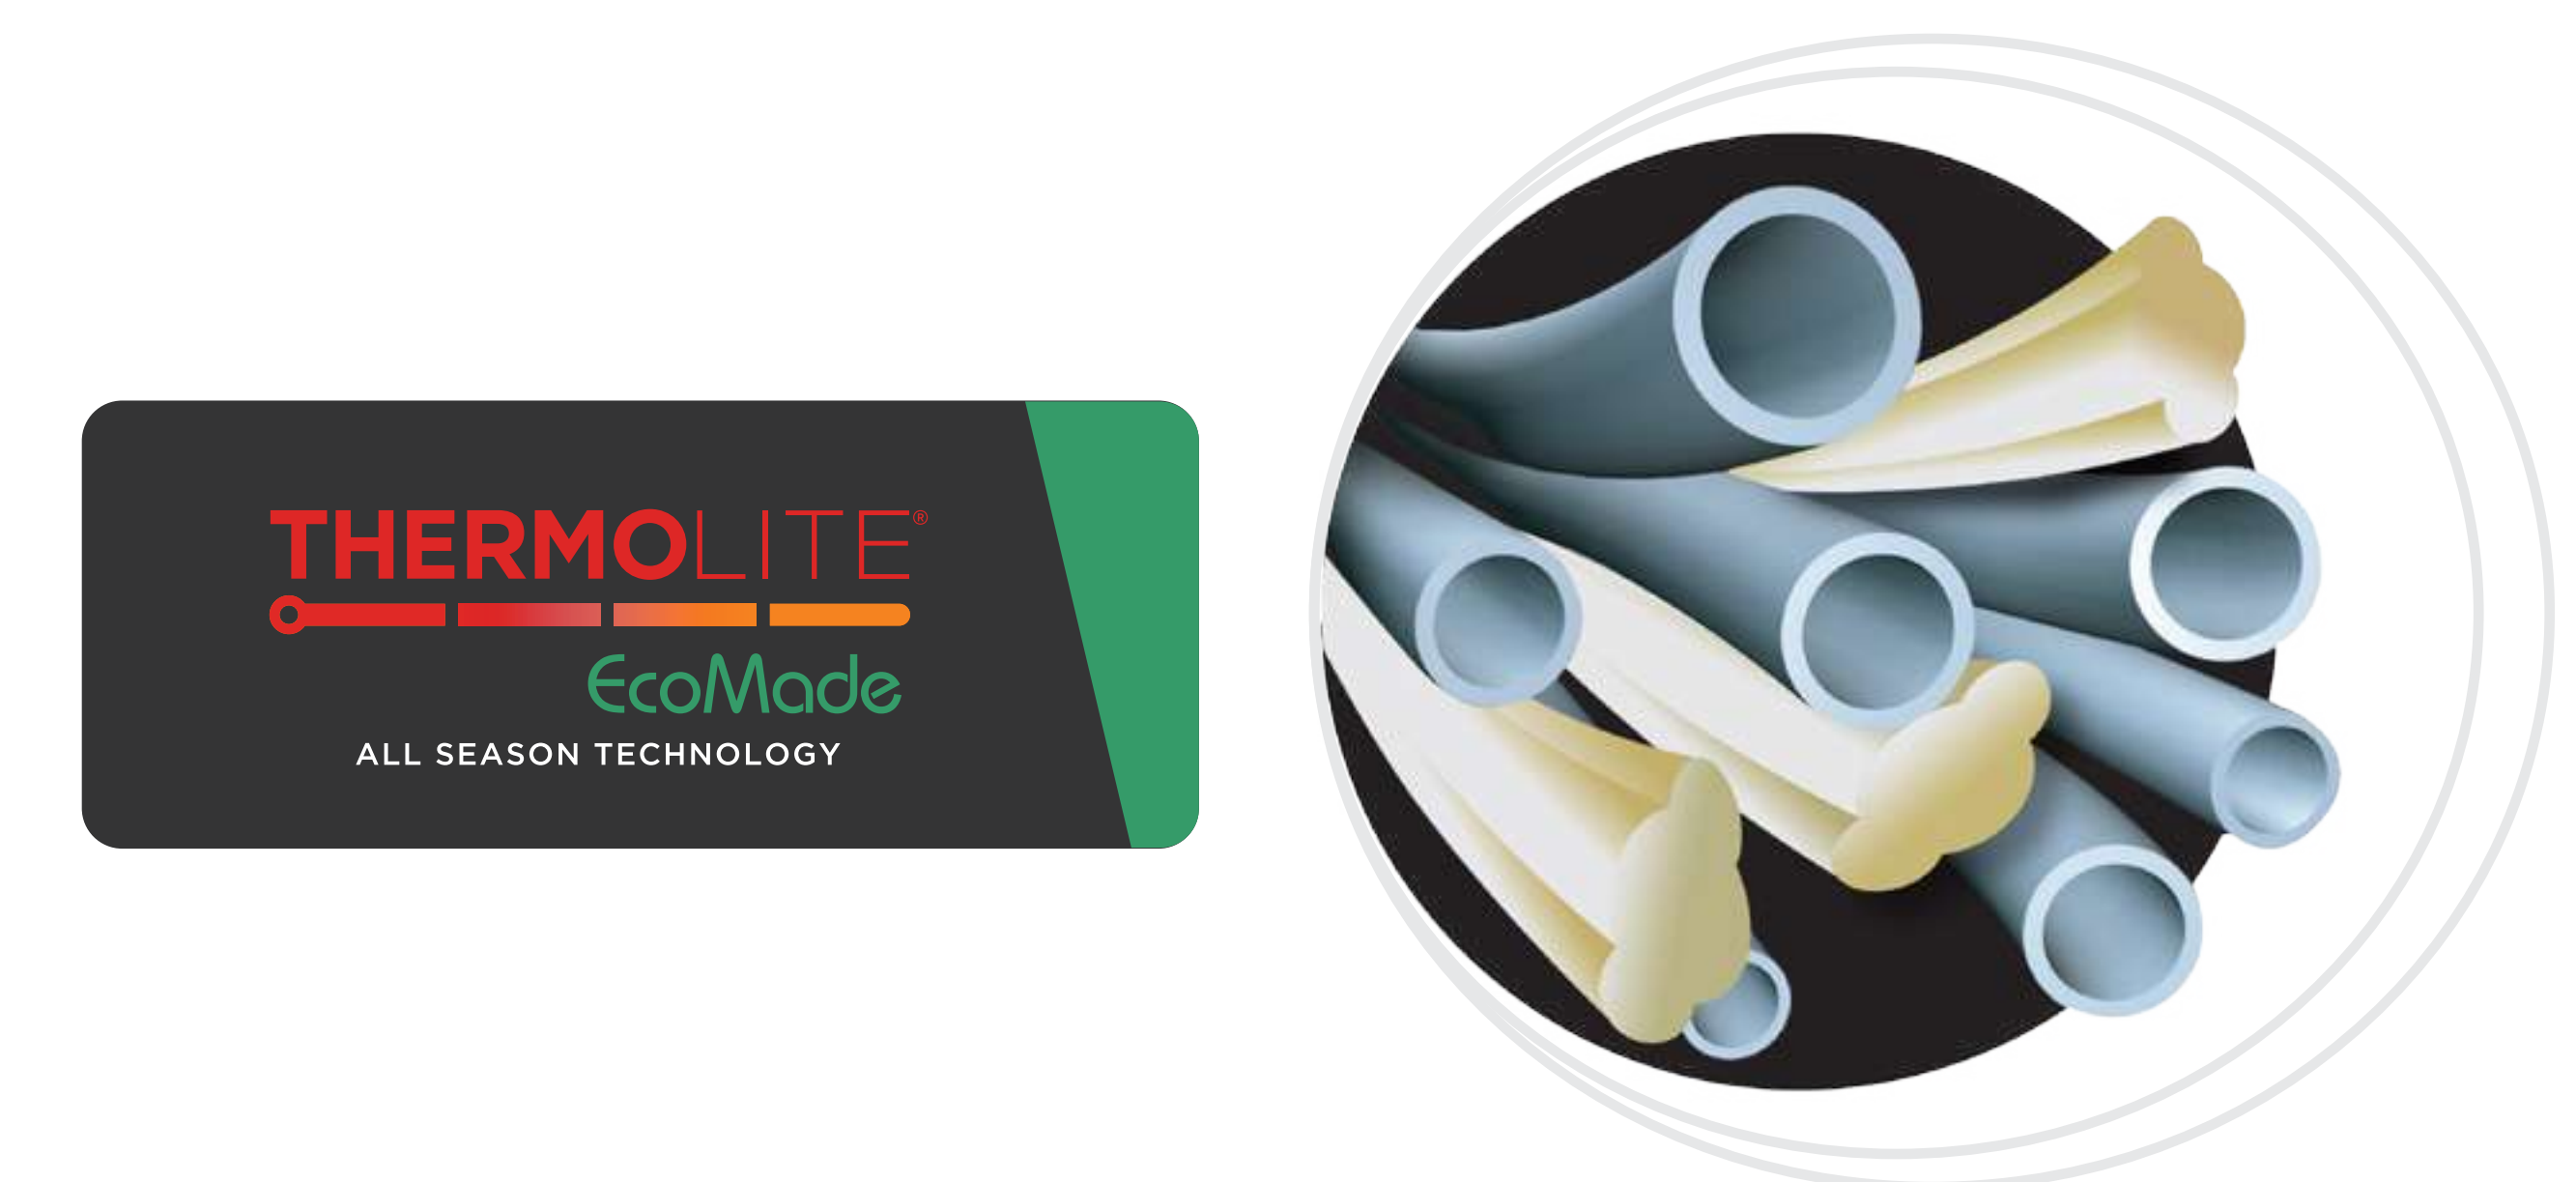

**THERMOLITE® ECOMADE ALL SEASON OFFERS YEAR-ROUND COMFORT FOR MULTI SEASONAL FUNCTIONALITY.**

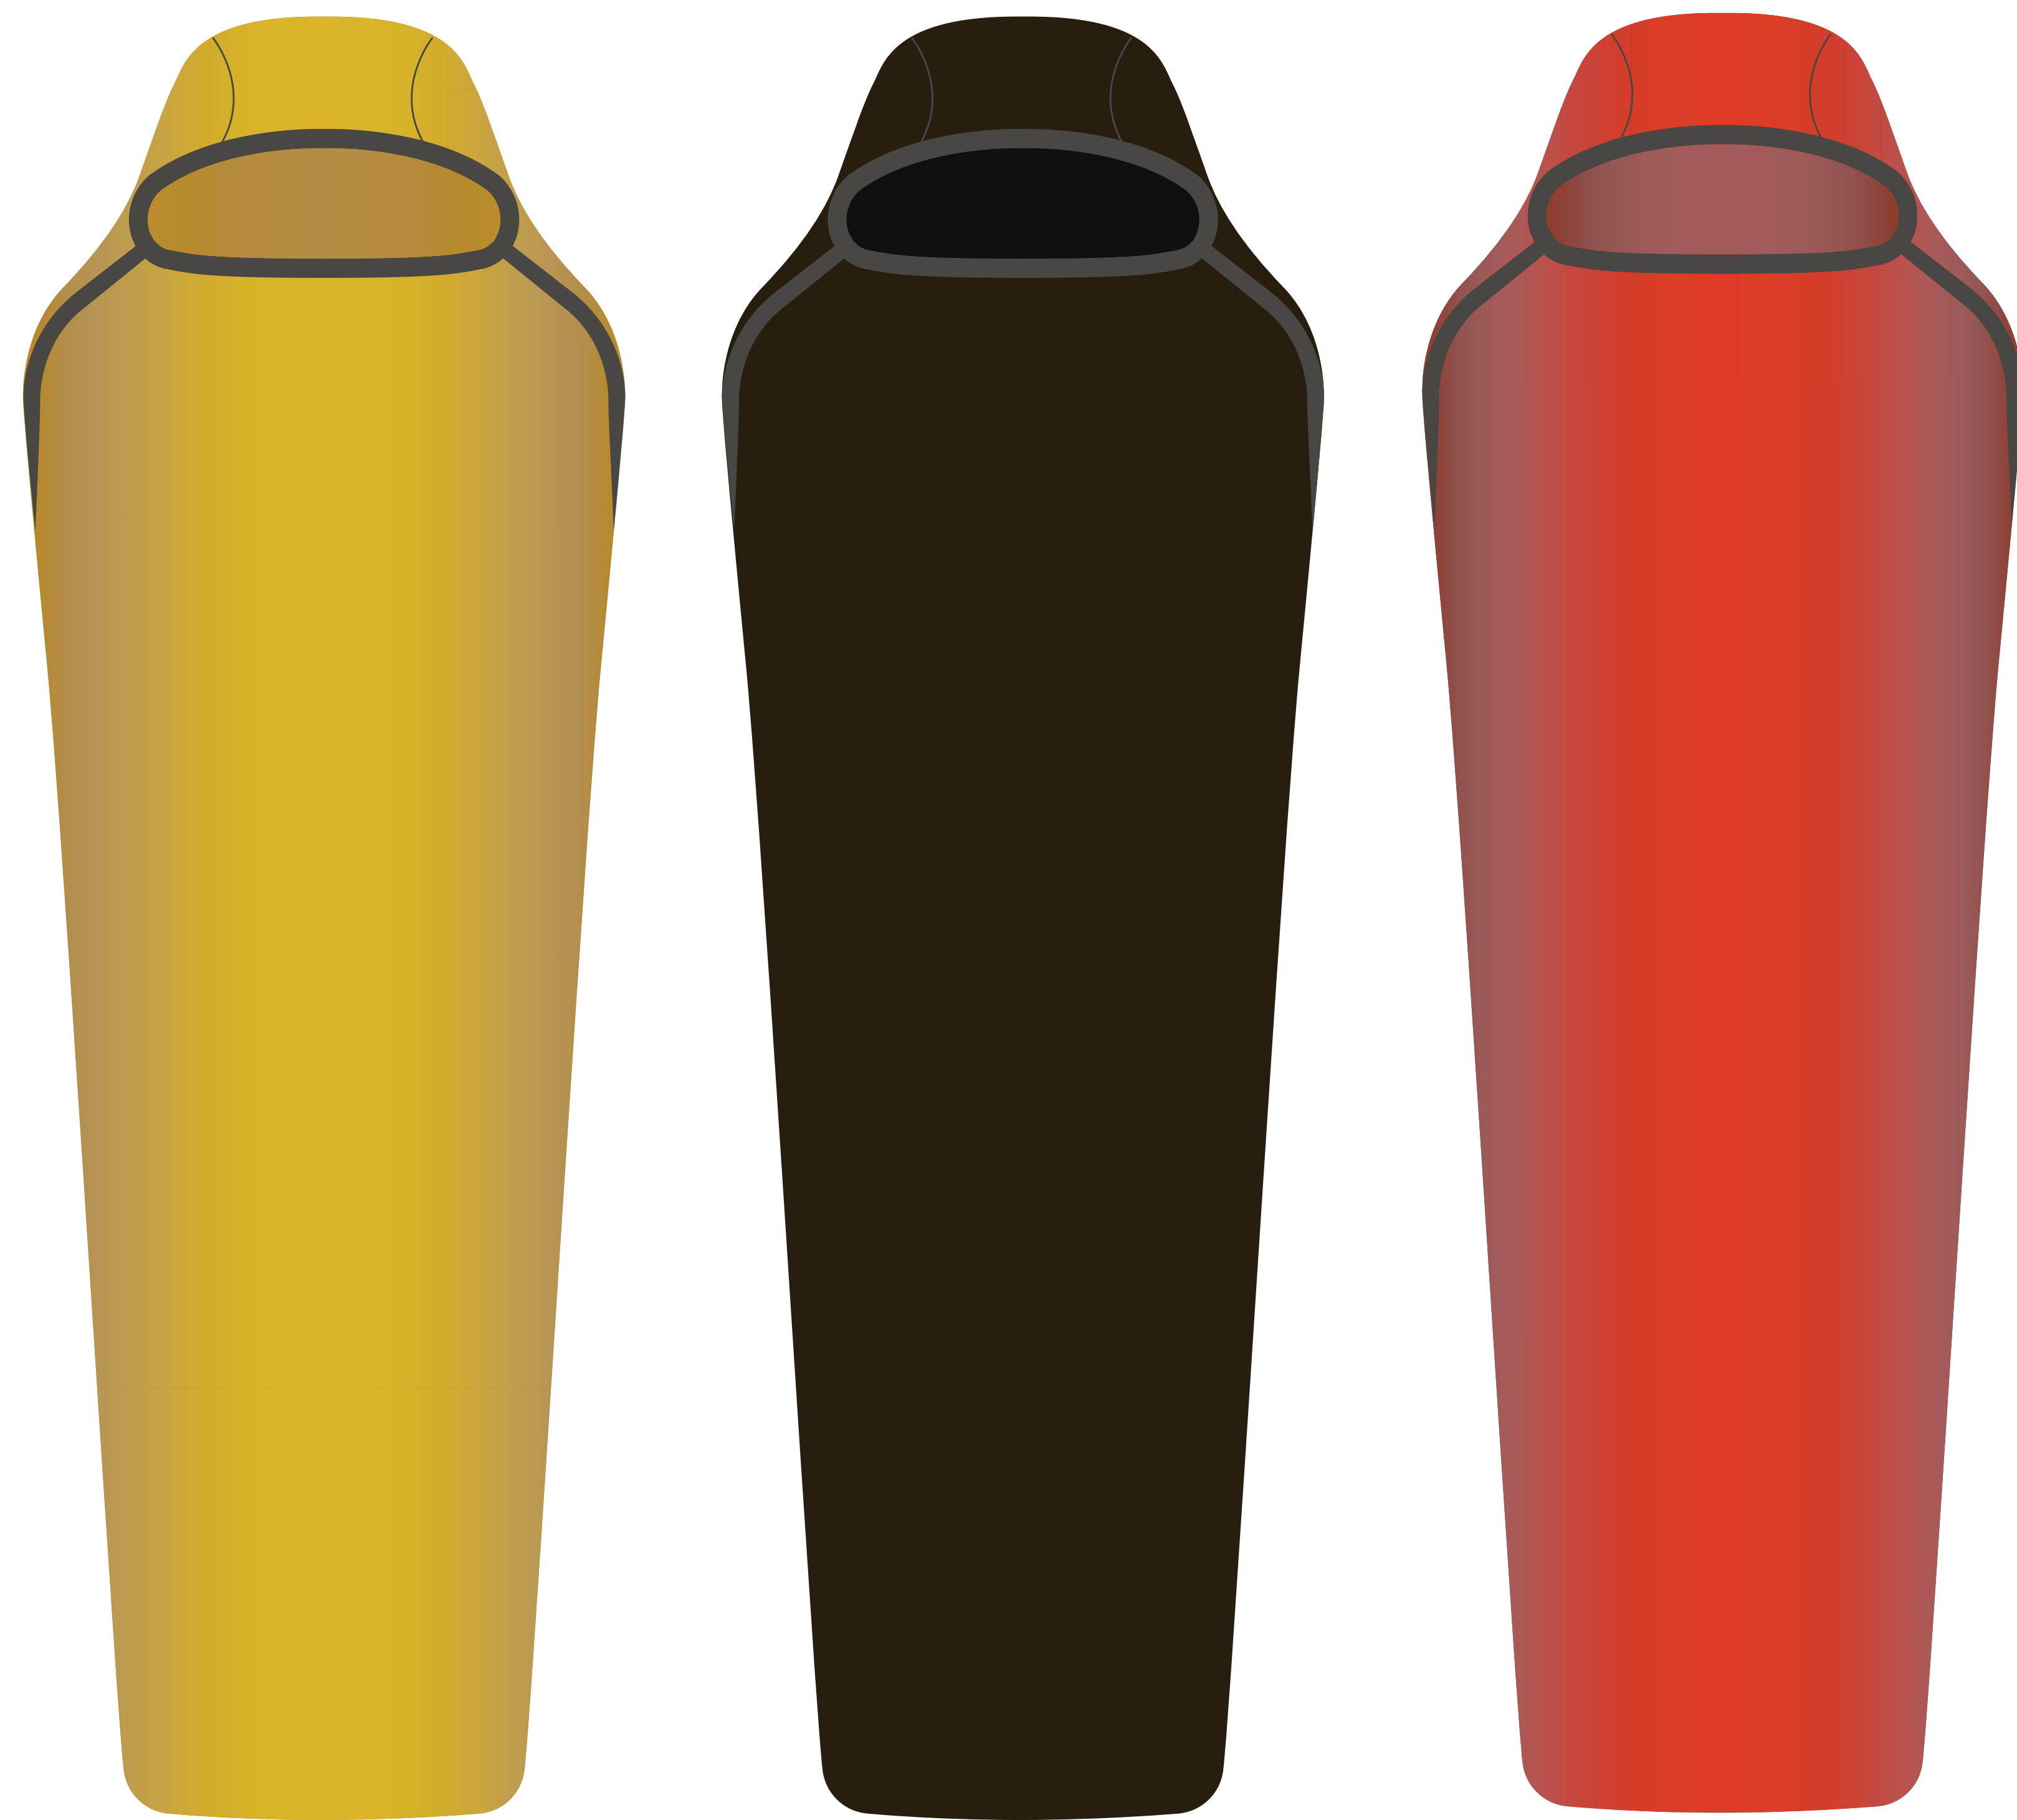

THERMOLITE® EcoMade ALL SEASON technology uses a combination of fibres to help regulate temperature for premium comfort in both warm and cool conditions. In addition, the fibre is made from 100% post-consumer recycled resources.

The insulation is made with heat-trapping hollow core fibres and moisture-wicking channel fibres for adaptive temperature management.

This fibre is blended into the Reactor Fleece and Silk Blend Liners.

## THERMAL BOOST LINERS

Our collection of thermal boosting liners offers added warmth to bring you comfortable sleeps in cool climates. Made from premium fabrics and using cutting edge technology, pair this collection with our sleeping bags to create a cosy and comfortable sleep system suited to cold and arctic conditions.

# REACTOR LINER

With a mummy shape and Thermolite® Pro fabric, the Reactor Liner uses new infrared technology paired with comfortable stretch fabric to offer extra warmth, versatility, and increased insulation. The drawcord offers added flexibility for premium comfort. Best suited to cold conditions.

## SUSTAINABILITY

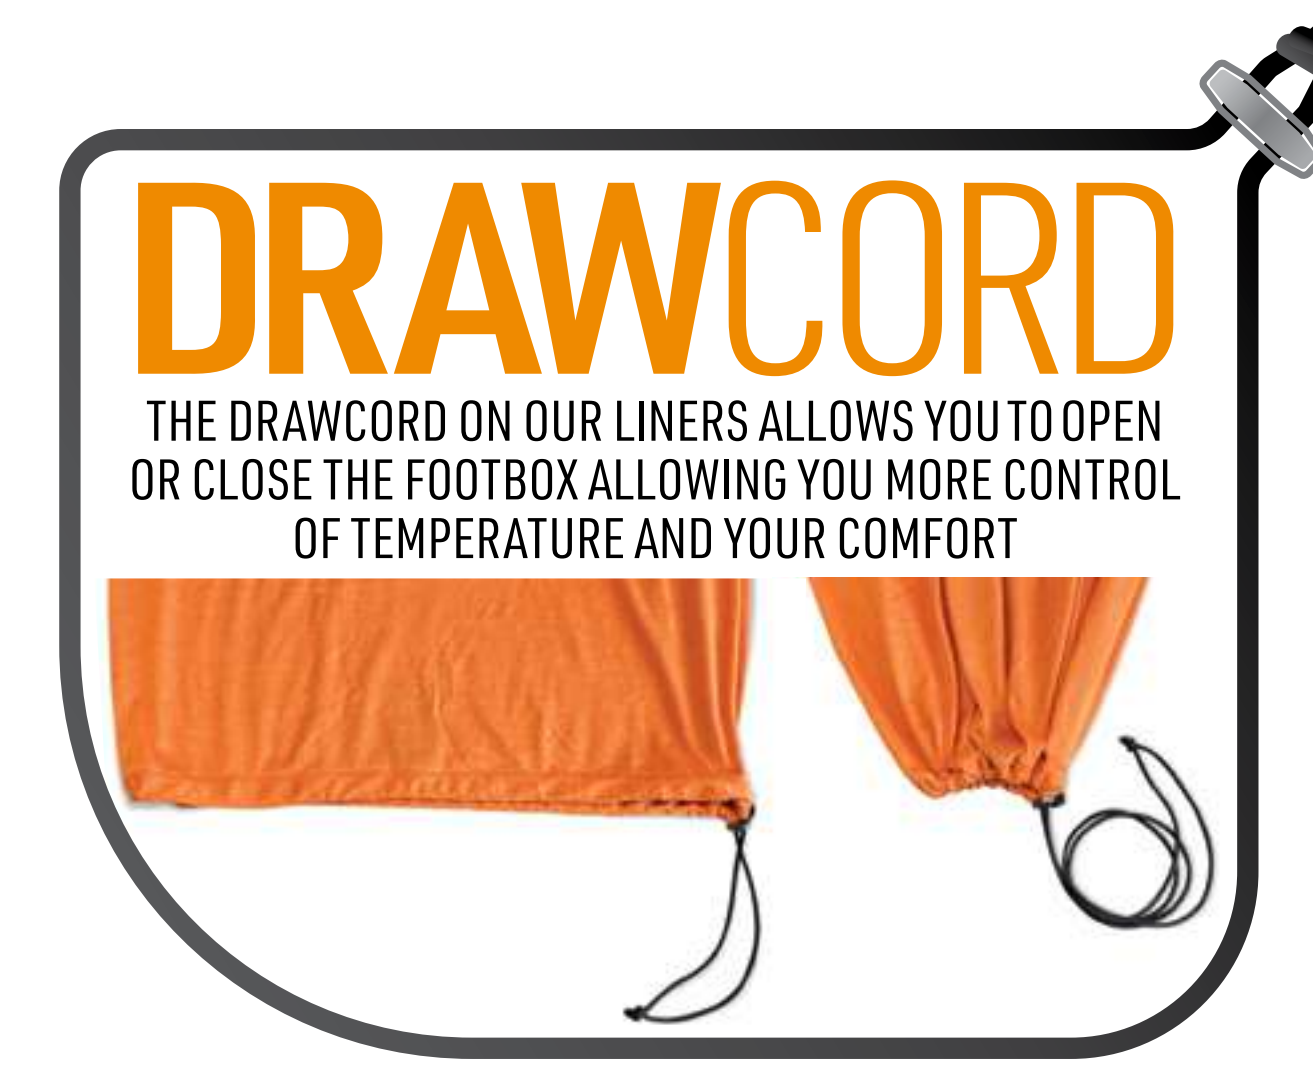

Fabric is made from 50% recycled yarns

### YARN 1

50% Thermolite Pro Yarn

### YARN 2

50% Thermolite EcoMade yarn:  
Fiber made with 100% recycled resources.

Thermolite Pro has engineered hollow fibres like standard Thermolite but with the addition of permanent ceramic pigments that absorb the body's infrared rays and reflect them back to the wearer.

The recycled Thermolite EcoMade fibers are made from 100% textile waste, are GRS-certified, and offer the same quality and durable lightweight warmth as their polymer virgin counterparts but with a lower carbon footprint.

Sea to Summit Liners are treated with HeiQ Fresh FFL, a biocide-free, highly effective odor control technology that uses a bio-based Amino Sugar Polymer to neutralise body odour.

## PREMIUM FABRICS IN OUR UPDATED AND EVOLVED LINER RANGE

COOLMAX ECOMADE PROVIDES MOISTURE MANAGEMENT WHICH WICKS WATER OR SWEAT AWAY FROM YOUR SKIN AND SPREADS IT ACROSS A BROAD AREA TO REGULATE YOUR BODY TEMPERATURE. .

COOLMAX® EcoMade technology provides the same reliable wicking performance that COOLMAX® offers while being made from 100% recycled resources.

COOLMAX® EcoMade fibres have channels that wick moisture away from the skin for fast evaporation and a more comfortable sleep.

This fibre is blended into the Breeze Liner collection.

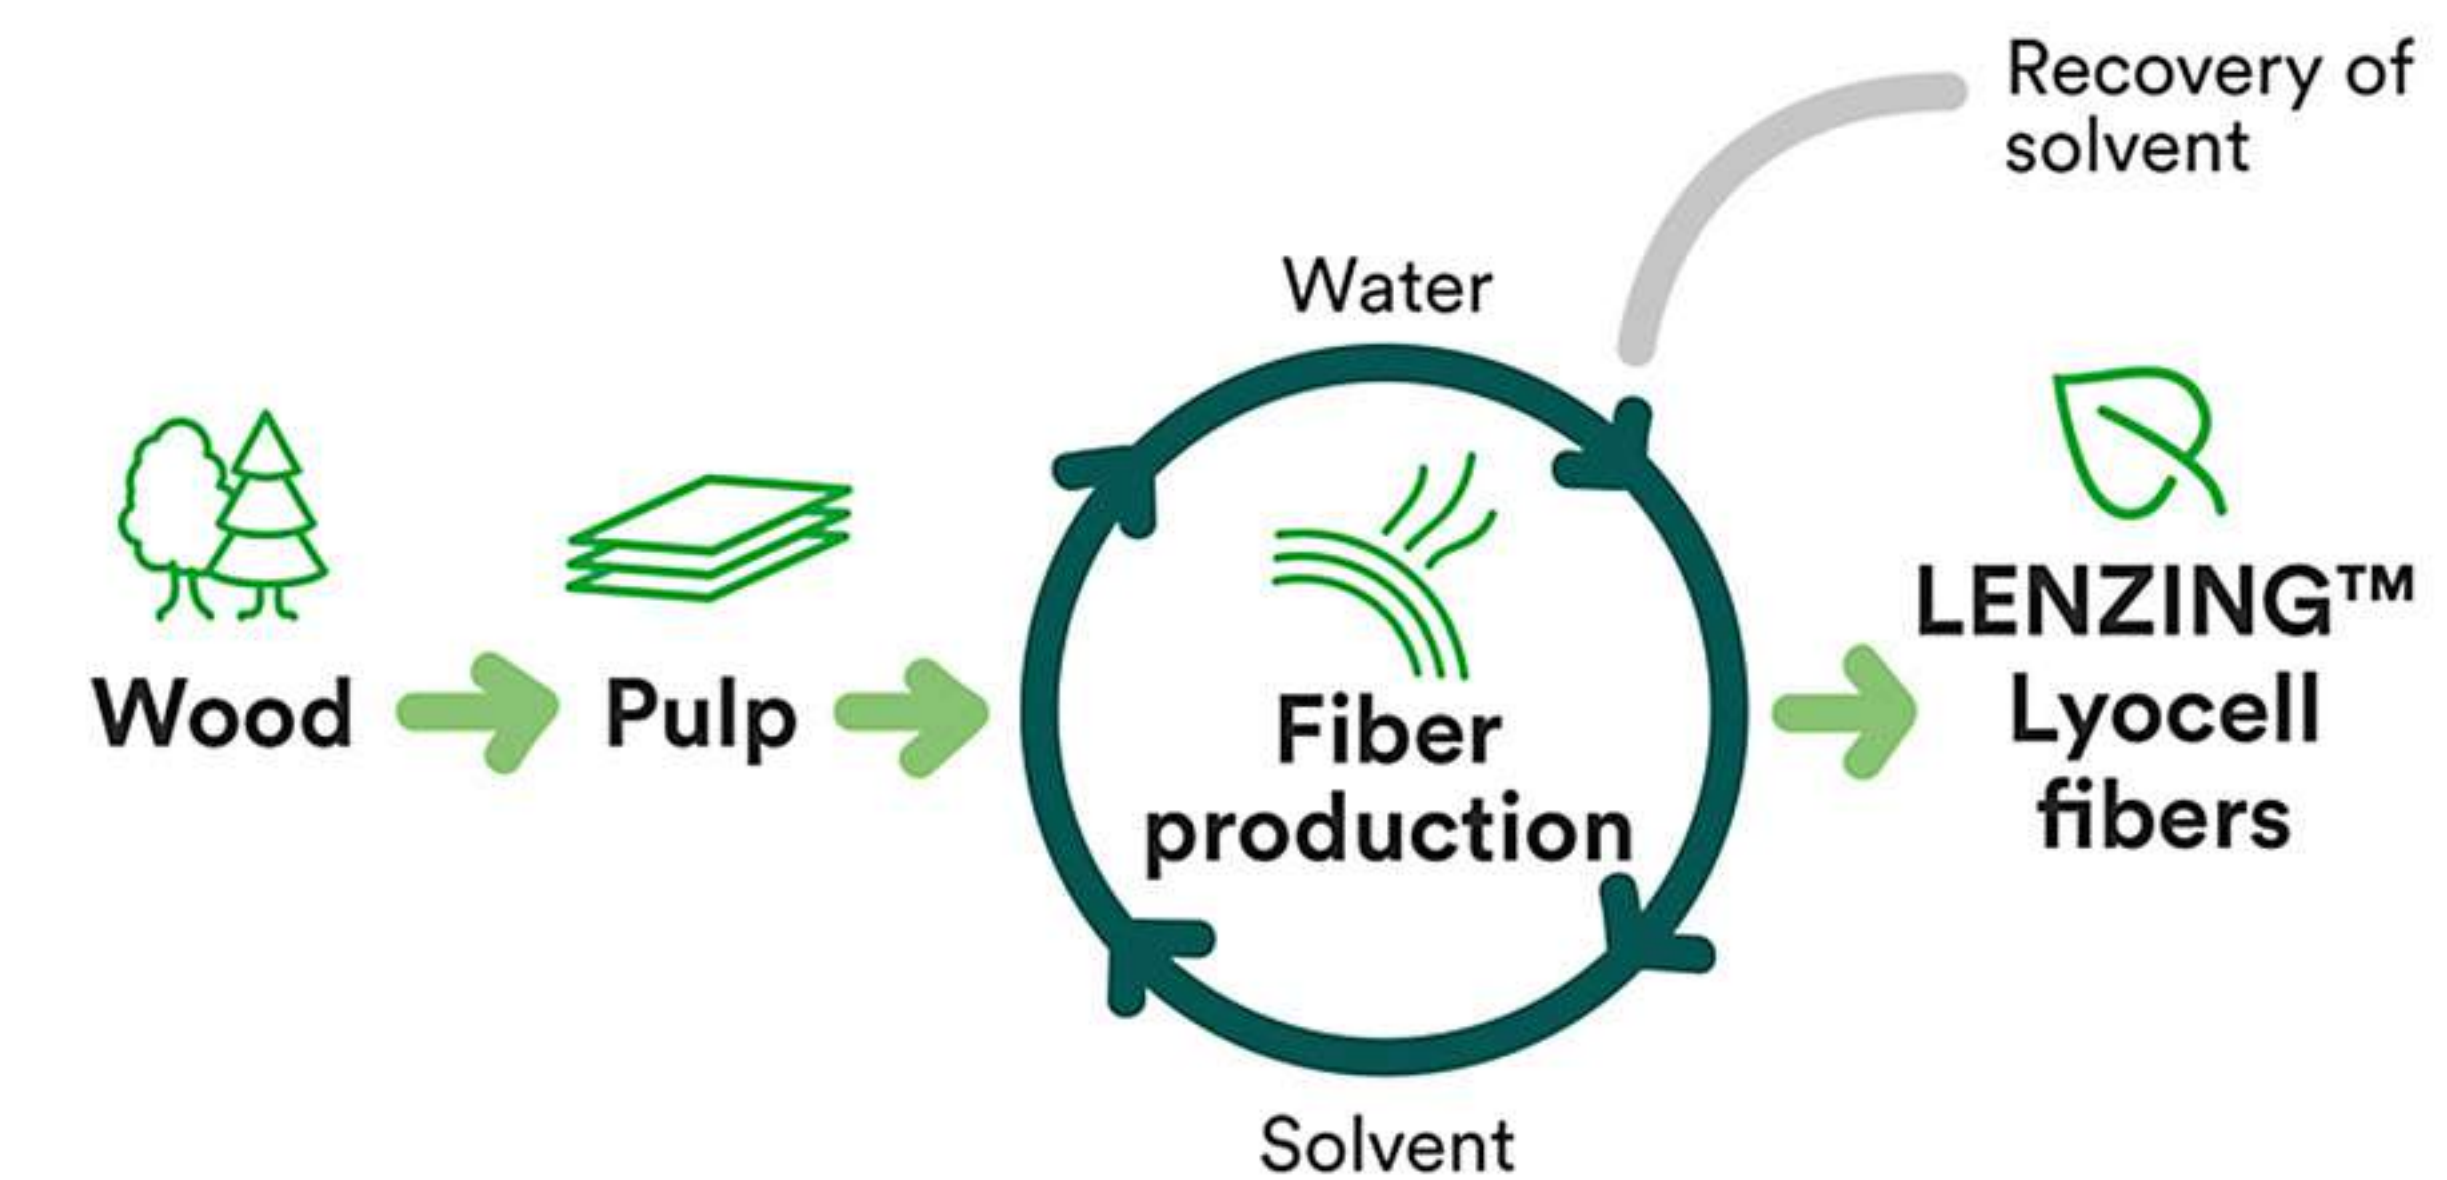

TENCEL™ LYOCELL IS A SUSTAINABLE MATERIAL PROVIDING EFFECTIVE TEMPERATURE REGULATION AND MOISTURE MANAGEMENT FOR PREMIUM COMFORT.

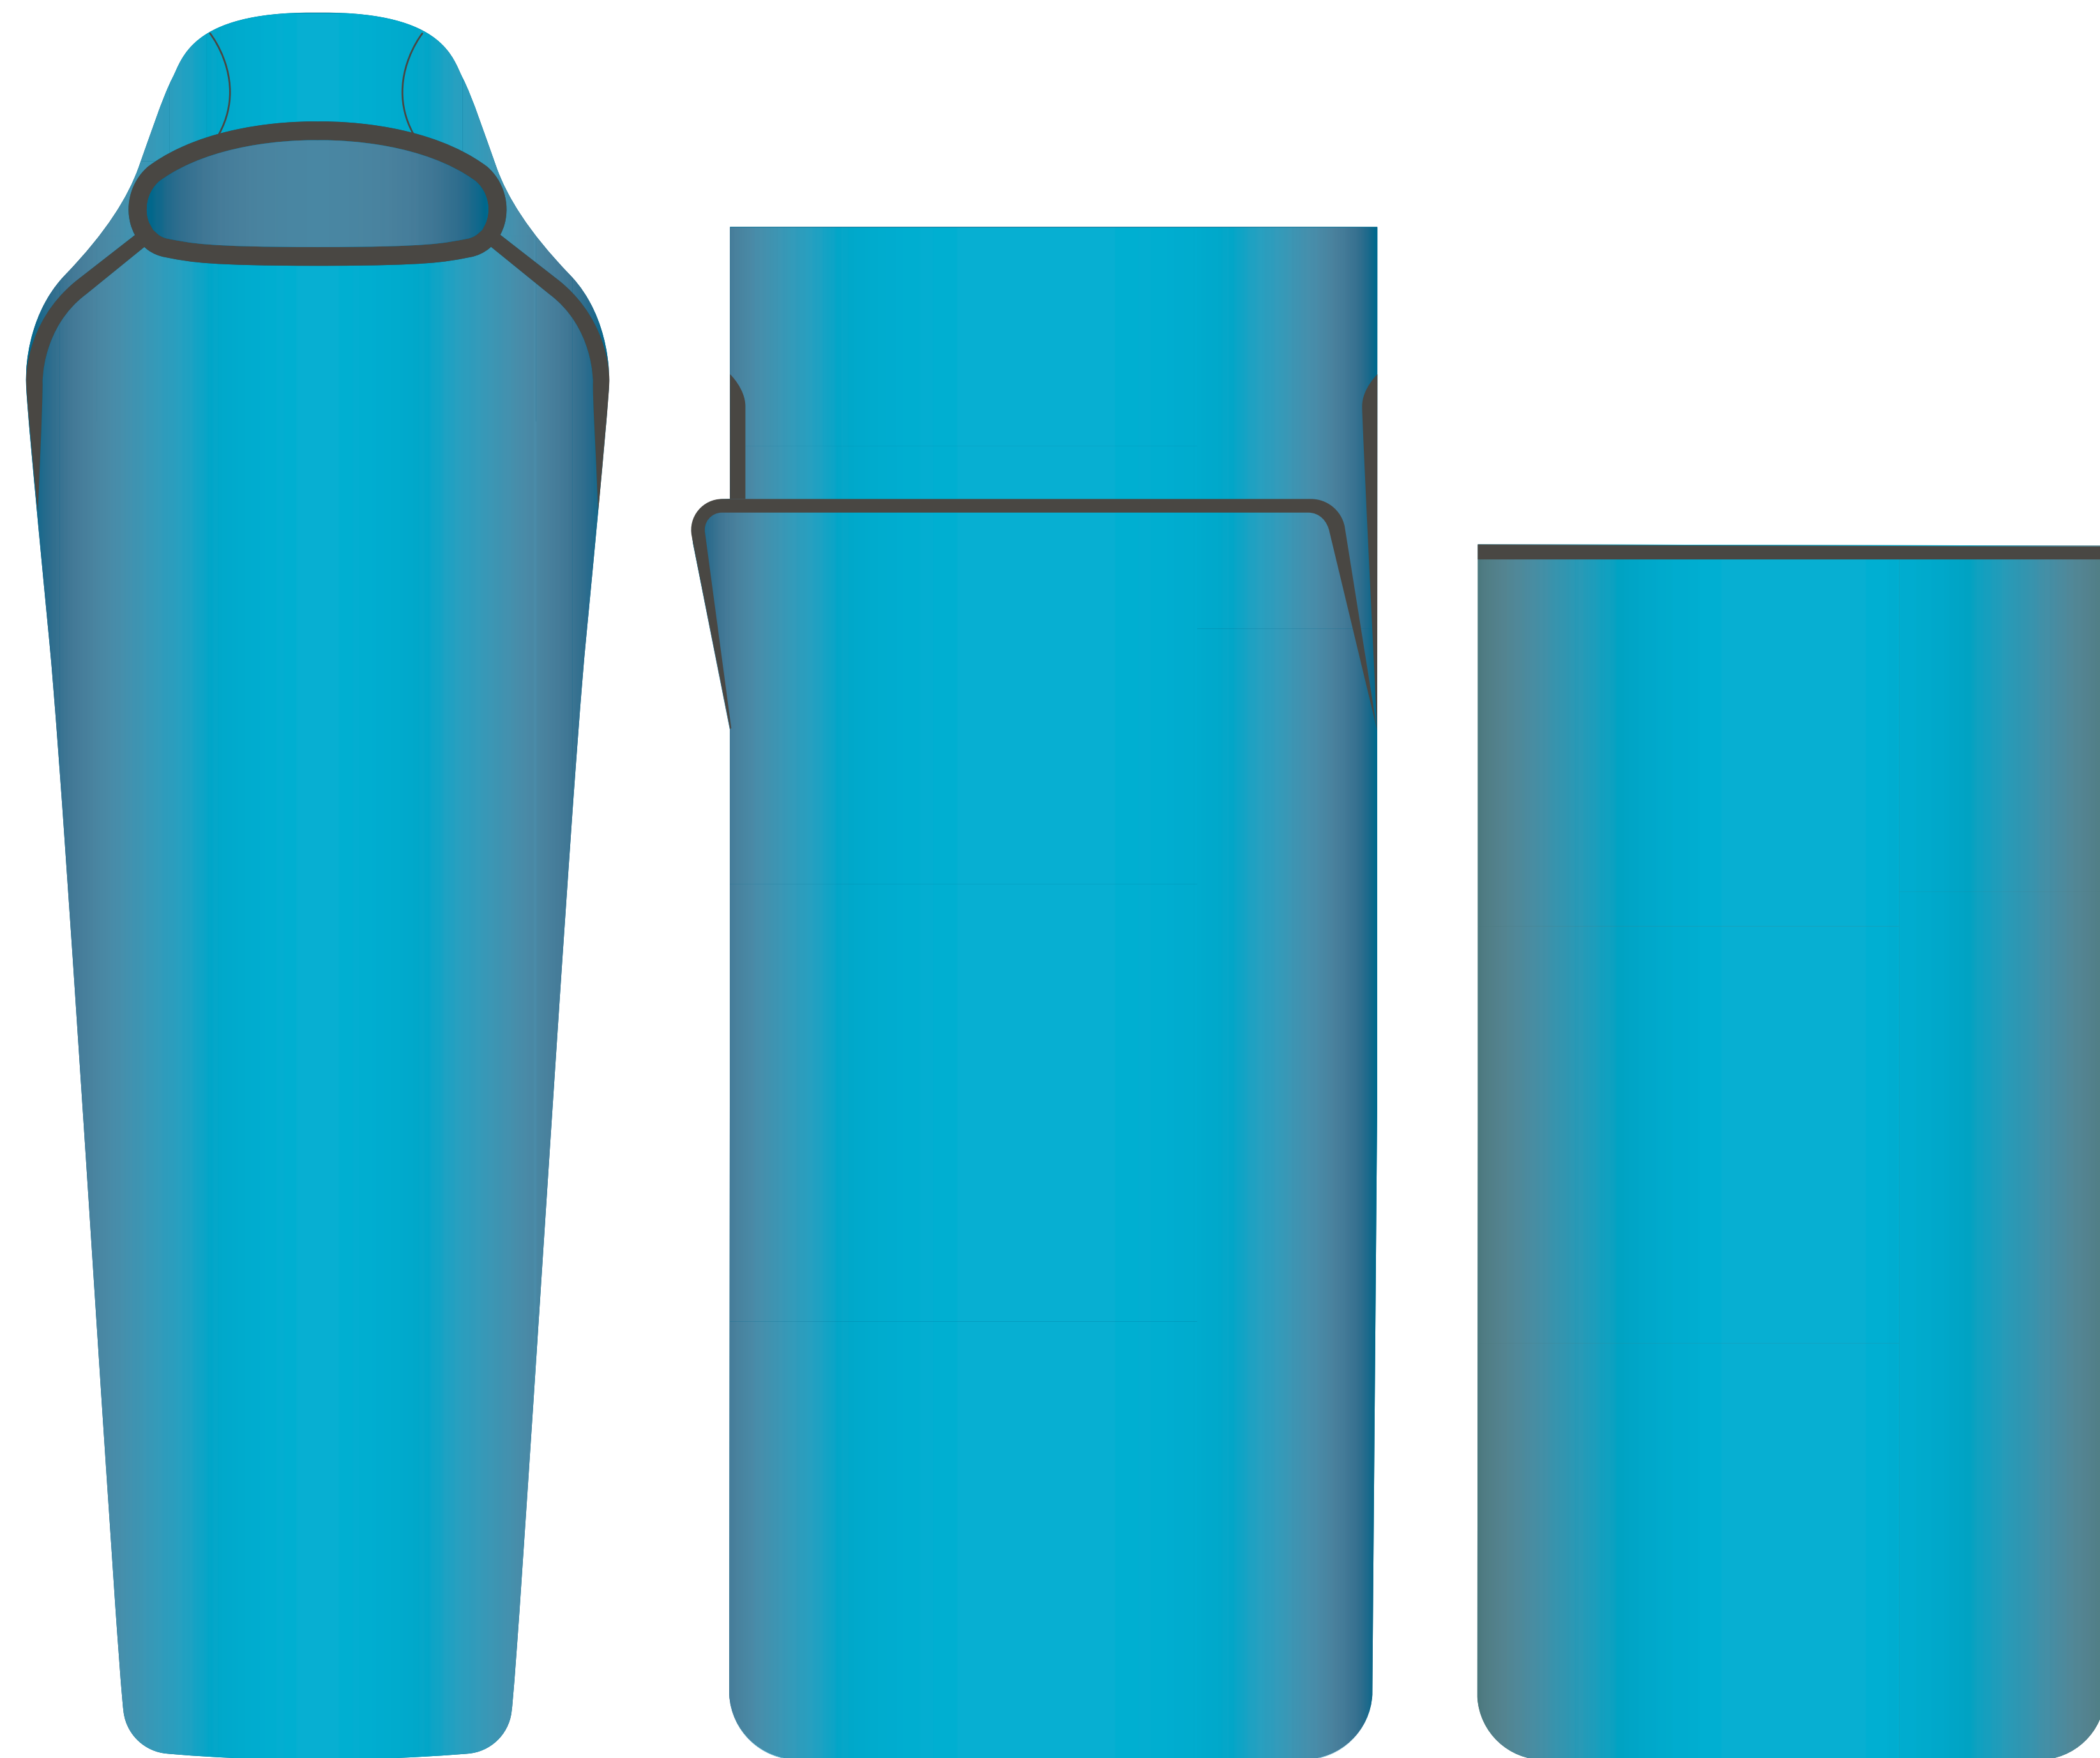

Derived from the sustainably sourced renewable wood fibres and manufactured using environmental responsible processes. TENCEL™ fibres define a new standard of sustainability and natural comfort.

TENCEL™ Lyocell fibres support body temperature regulating properties through their moisture management. In addition, their high tenacity profile and gentleness to the skin offers long-lasting softness.

This fibre is blended into the Comfort Blend Liner.

## MOISTURE MANAGEMENT LINERS

Our collection of moisture management liners effectively regulate your body temperature and reduce moisture in your sleeping bag. Made from premium fabrics, this collection can be paired with our sleeping bags to create a durable and versatile sleep system founded on comfort.

# COMFORT BLEND LINER

The Standard and Traveller Comfort Blend Liner offer versatility and peace of mind in a range of climates and conditions. Featuring premium fabrics including Tencel-poly blend fabric and Tencel Fibers wick moisture, the Comfort Blend liner lets you enjoy the outdoors with the comforts of home.

# SLEEPING MATS

# AIR SPRUNG CELL MATS

Our award-winning Air Sprung Cell Sleeping Mats provide air cushioned comfort from the lumps and bumps beneath you.

## COMFORTABLE

### AIR SPRUNG CELLS

Stability equals greater comfort. A pattern of dot-welds creates hundreds of interconnected chambers called Air Sprung Cells. Just like a pocket spring mattress, this matrix of cells provides unmatched support while conforming to the contours of the sleeper.

### THERMOLITE® INSULATION

Designed for ultimate performance, THERMOLITE® is made from specially engineered fibres to achieve a high CLO value with low weight. The THERMOLITE® insulation lofts up inside the Air Sprung Cells to prevent convective heat loss from your warm body to the cold ground.

### EXKIN PLATINUM®

A very lightweight, quiet, non-woven fabric that has a thin metalised layer applied to the surface which reflects radiant heat back to the user.

## DURABLE

### EXTRUSION TPU LAMINATION

Ultra-Fresh® anti-microbial treatment added to the TPU formula prevents internal mould growth.

### DURABLE 30/40D NYLON FACE FABRIC

Lightweight, quiet and grippy 30/40D Nylon face fabric.

## EASY TO USE

### PILLOWLOCK SYSTEM

Pillow Lock attaches an Aeros pillow to mat.

### REPAIR KITS

All ASC Mats ship with a set of peel and stick repair patches that provide quick and permanent solutions to any unfortunate punctures.

### AIRSTREAM PUMPSACK

Includes an Airstream Pump that is integrated into the stuff sack for quick and easy inflation.

### MULTI-FUNCTION VALVE

Multi-function valve provides fast inflate, deflate and easy fine-tuning for personalised comfort.

# SELF-INFLATING MATS

Our range of self-inflating mats provide consistent warmth along the full length of the mat in a compact and lighter, comfortable, easy-to-use package.

## COMFORT

### PILLOWLOCK SYSTEM

Pillow Lock attaches an Aeros pillow to mat.

### FOUR WAY STRETCH FABRICS

Four way stretch fabrics better conform to your body as you sleep.

### ANTI-SLIP SILICONE PRINT

Prevents your sleeping bag from slipping on the mat, or the mat from slipping on the tent floor.

VIDEO

## EASE OF USE

### REPAIR KITS

Both our Self Inflating and Air Sprung Cell mats include a small repair kit with repair patches.

### MULTI-FUNCTION REVERSIBLE VALVE

Specifically designed for Self-Inflating mats.

With a simple twist, our multi-function valve prevents reinflation while rolling your mat up. Twist it back for easy one-way inflation and fine tuning.

## LIGHTER WEIGHT

### DELTA CORE

The design leaves a solid layer of foam to bond with the fabric across the full length of the mat, making a far more durable finish. Delta Core design leaves extra foam directly under the sleeper, providing better insulation.

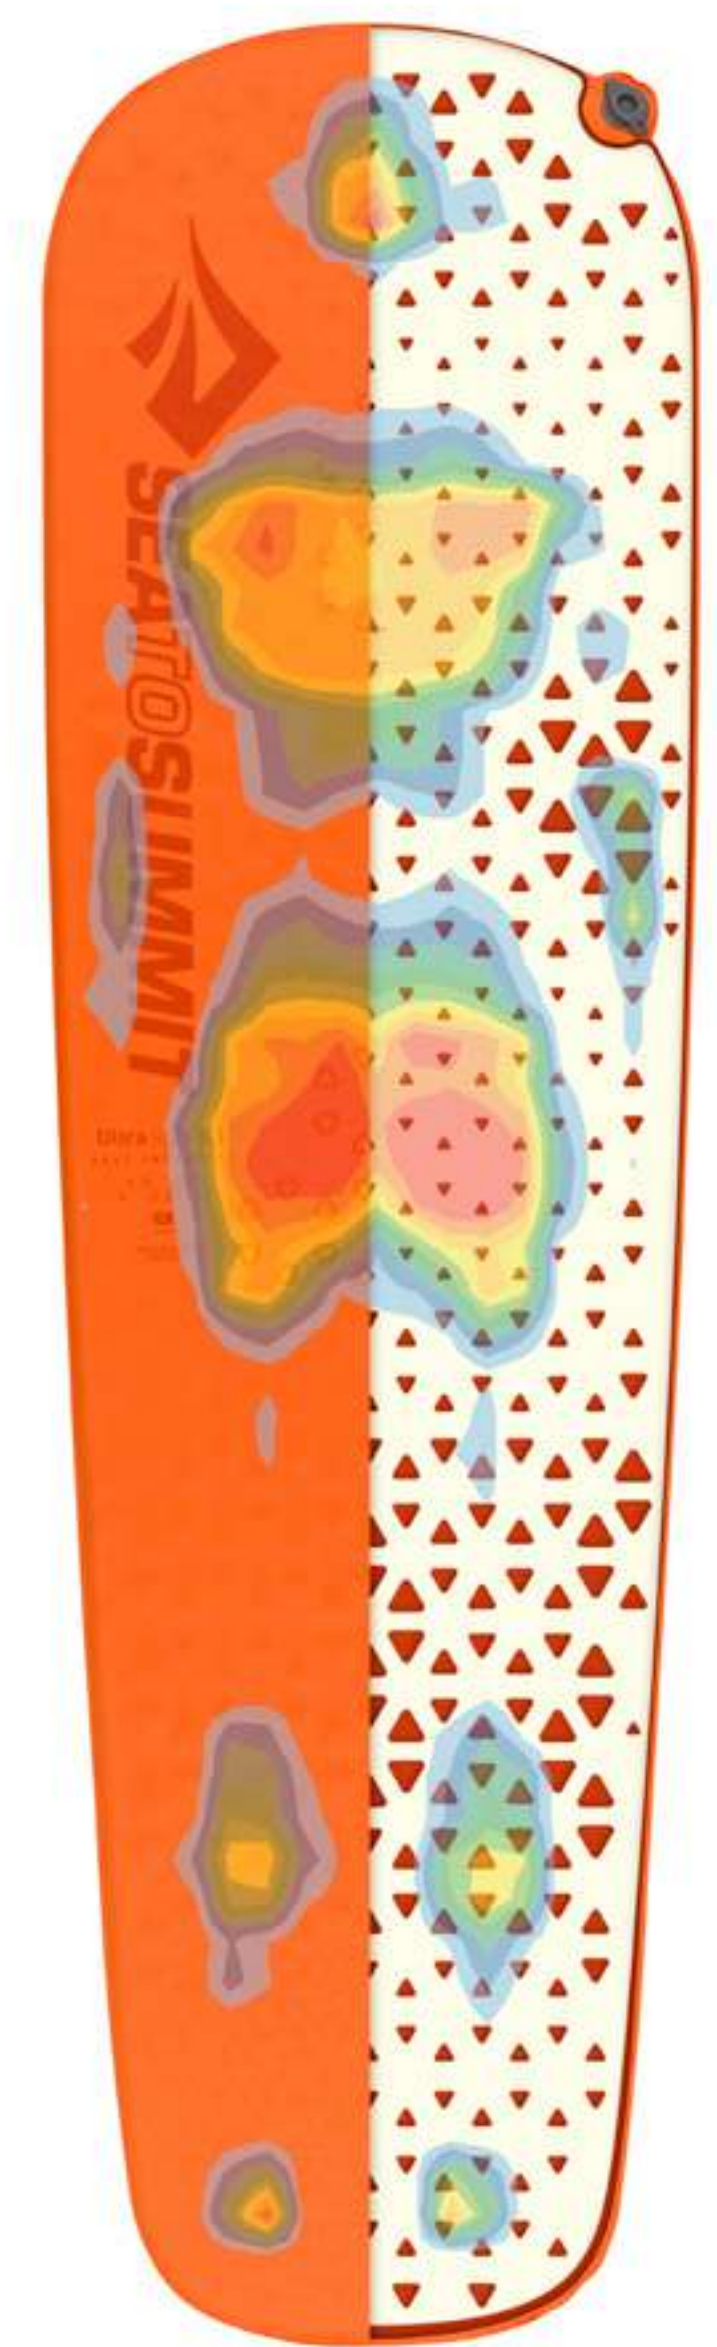

VIDEO

### DELTA CORE-V

In our lighter models, Delta Core-V vertical coring technology is applied to remove 20% of the weight and bulk of the mat's polyurethane (PU) foam. We use sophisticated pressure-mapping data to define body contact areas which becomes the blueprint for our distinctive graduated core pattern.

### MAT COUPLER KIT LOOPS

Stop sleeping in the crack—secure your two Sea to Summit mats together.

#### FEATURES

- Simple to use
- Low profile design stays flat for comfortable positioning

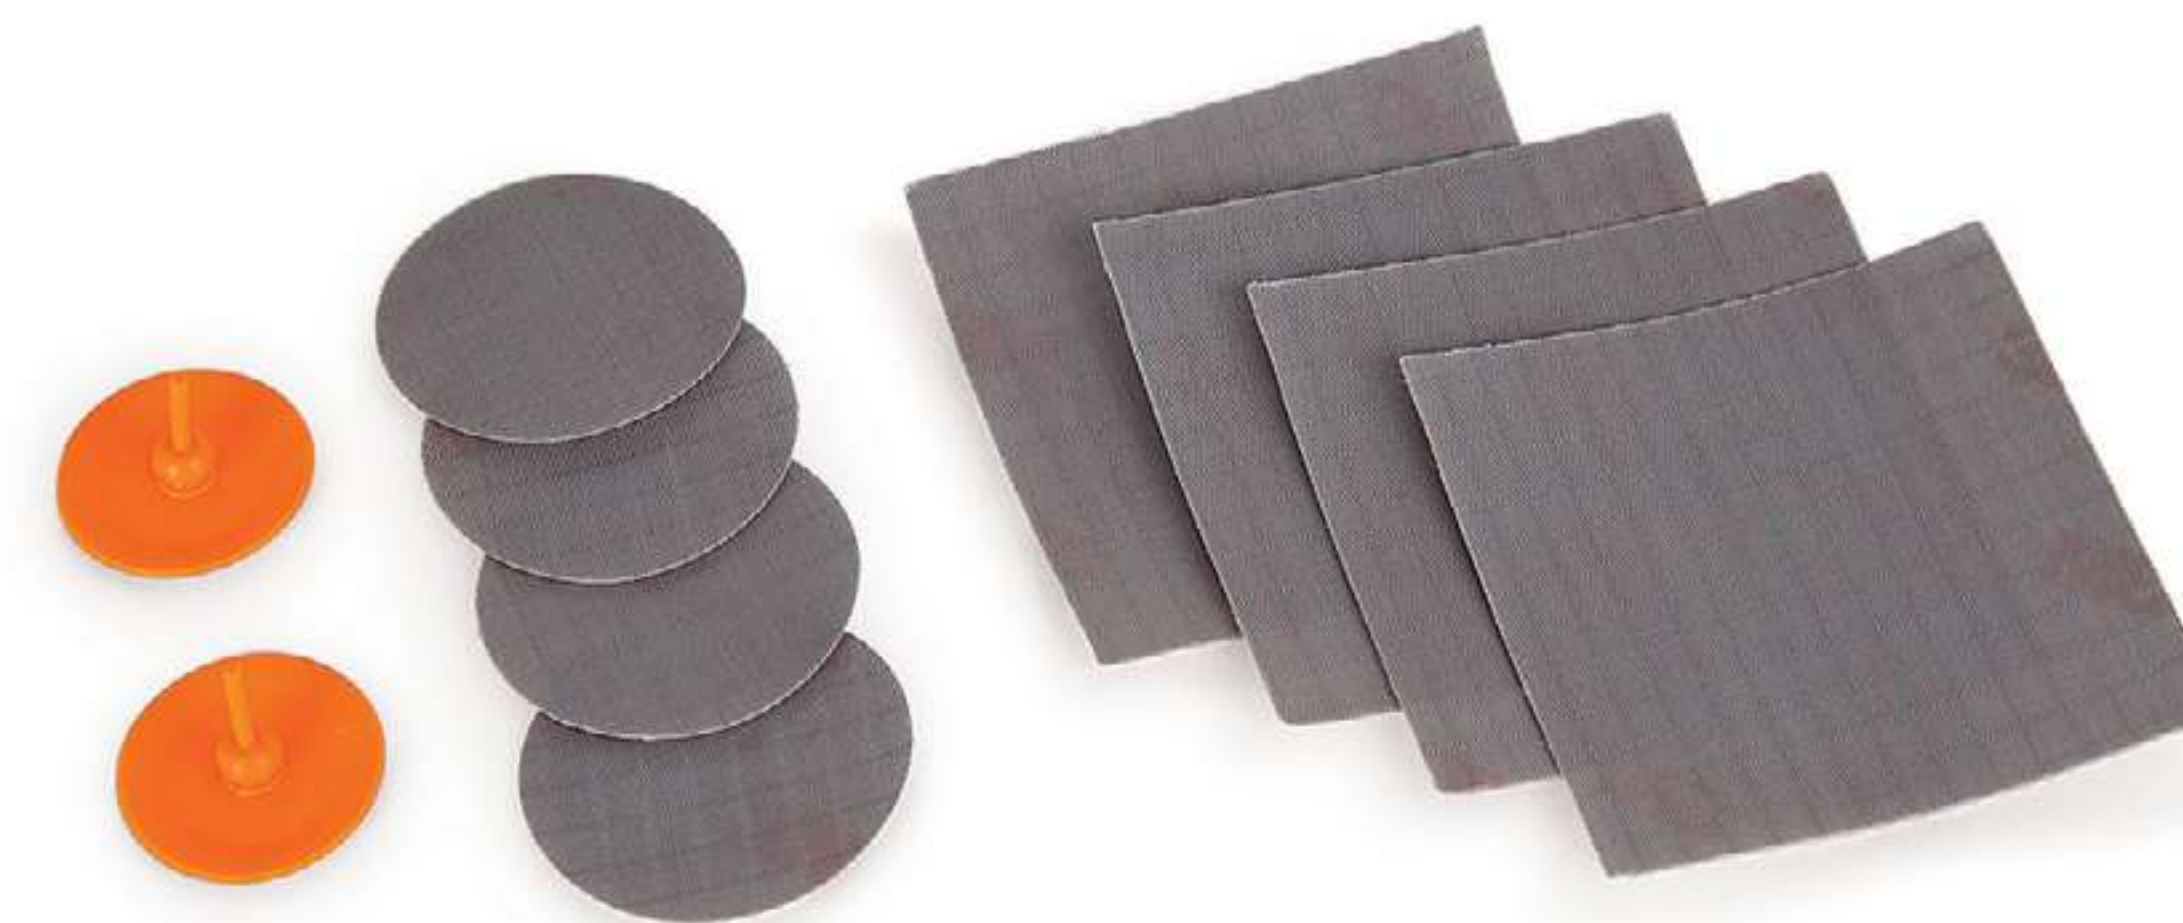

### AIRSTREAM PUMP SACK

Storage by day, pump by night—inflate your air mat in seconds.

#### FEATURES

- Works with the multi-function valve on both ASC and SI mats.

### AIR MAT REPAIR KIT

Punctures happen—repair your Sea to Summit air mat with ease.

### AIR CHAIR

Air mat transformer: chair by day and sleeping mat by night

#### FEATURES

- Converts your Sea to Summit Sleeping Mat into a comfortable camp chair
- Reinforced pole sleeve with puncture-proof synthetic rubber caps for added strength
- Upgraded side release Field Repair Buckles with stainless steel pin on side straps for durability and high break-strength
- Durable 70D base with 2000mm waterhead protects your mat from rough or wet ground

SIZES R / L COLOUR  

### AIR SEATS

So packable you won't notice the addition to your bag, but so useful you'll never leave home without it. Our Air Seat is the perfect way to add a little comfort to whatever you're sitting on. Available in both a standard and an insulated version.

#### FEATURES

- Super-fast inflate and deflate with our multi-function low profile mini-valve

COLOURS   

### S.I. SEAT

A compact seat companion that quickly inflates to provide extra comfort and support for any adventure.

#### FEATURES

- Our patented low-profile multi-function mini-valve provides fast inflate, deflate and easy fine-tuning

# AEROS PILLOWS

Whether in transit or the back country, our Aeros range of lightweight and compact inflatable pillows will award you a comfortable sleep.

## OUR AEROS PILLOWS FEATURE:

### PILLOWLOCK COMPATIBLE

Easily secure your Aeros pillow to your Sea to Summit mat for a slip-free sleep—PillowLock patches are included with all our mats.

### MULTI-FUNCTION MINI VALVE

Featuring our unique mini-valve for easy inflation, deflation and fine tuning.

### LIGHTWEIGHT AND COMPACT

Often forgotten, always appreciated—they're so small and light the only decision to make is which one to choose.

### CONVENIENT STORAGE

Comes with a stuff sack or zippered pouch to make packing and storage so much easier.

### AEROS PREMIUM DELUXE

Dream big; pack small with this luxurious, lightweight and surprisingly compact full-size pillow.

### AEROS PREMIUM

A luxurious, high-performance pillow without the weight and bulk. Perfect for travel and camping where you can risk a couple more grams for a great night's sleep.

#### FEATURES

- Scalloped bottom edge centres the pillow over your shoulder no matter whether you are sleeping on your back, side or sitting upright in a chair

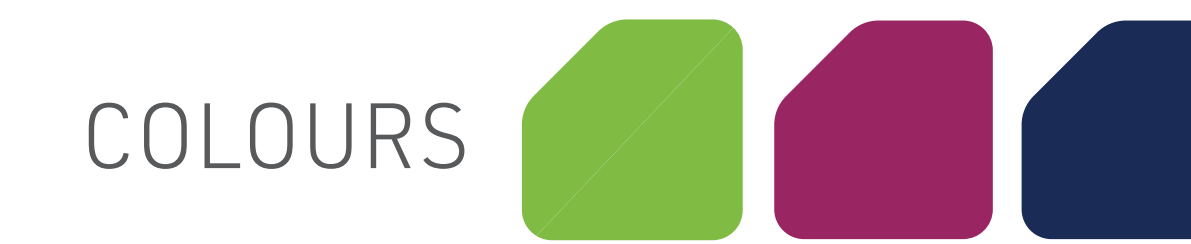

### AEROS PREMIUM TRAVELLER

Take your transit comfort to a new level with our packable Premium Traveller Pillow.

#### FEATURES

- Adjustable neck closure for additional support
- Ergonomic shape and enlarged ends reduce the need to bend your neck for support
- Narrows at the centre to fit snugly between your neck and headrest

### AEROS PREMIUM LUMBAR SUPPORT

Keep your lower back supported and comfortable in the air, at your desk or behind the wheel.

#### FEATURES

- Includes an adjustable webbing strap to secure the pillow in place

# STORAGE

A bag for every adventure

## DECADES OF INNOVATION

For more than 30 years, we've remained committed to constantly developing and refining our range of storage products. We strive for excellence and relentlessly field-test our gear. That's why we're the world's most trusted name in the category.

## BROADEST RANGE

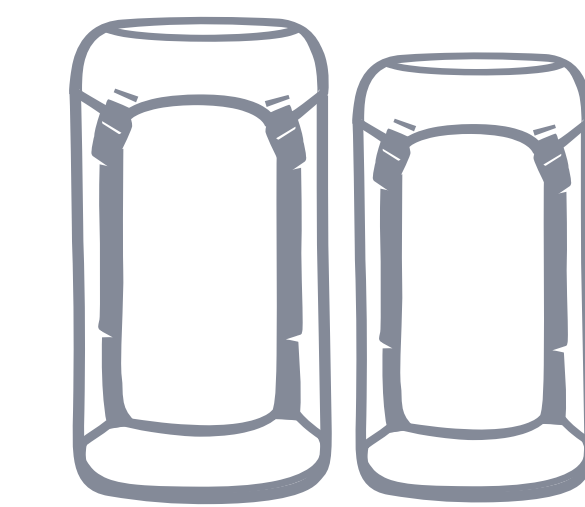

We consistently push the limits of innovation, design and material development, which has led to the largest, most awarded range of dry and non-dry storage products available.

## MARKET LEADER

Our commitment to innovation and proven performance has made Sea to Summit the leading brand for high-quality Dry Bags, Stuff Sacks and Compression Bags for more than a decade.

# DRY ORGANISATION AND ACCESSORY CASES

OUR WATER-RESISTANT, DUST-PROOF  
ACCESSORY CASES FEATURE:

**TOUGH**

Totally welded construction

**INDIVIDUALLY TESTED**

Water-resistant and dust-proof

**ERGONOMIC DESIGN**

Easy to open, easy to use

# HYDRAULIC PACKING CUBES

Our lightweight and field-ready Hydraulic Packing Cubes keep your gear dust-free, organised and protected in transit and on off-road adventures.

With TPU-laminated 70D ripstop nylon, strong RF-welded seams and PU-coated splash-resistant zips—they're engineered to keep the elements out in the toughest conditions.

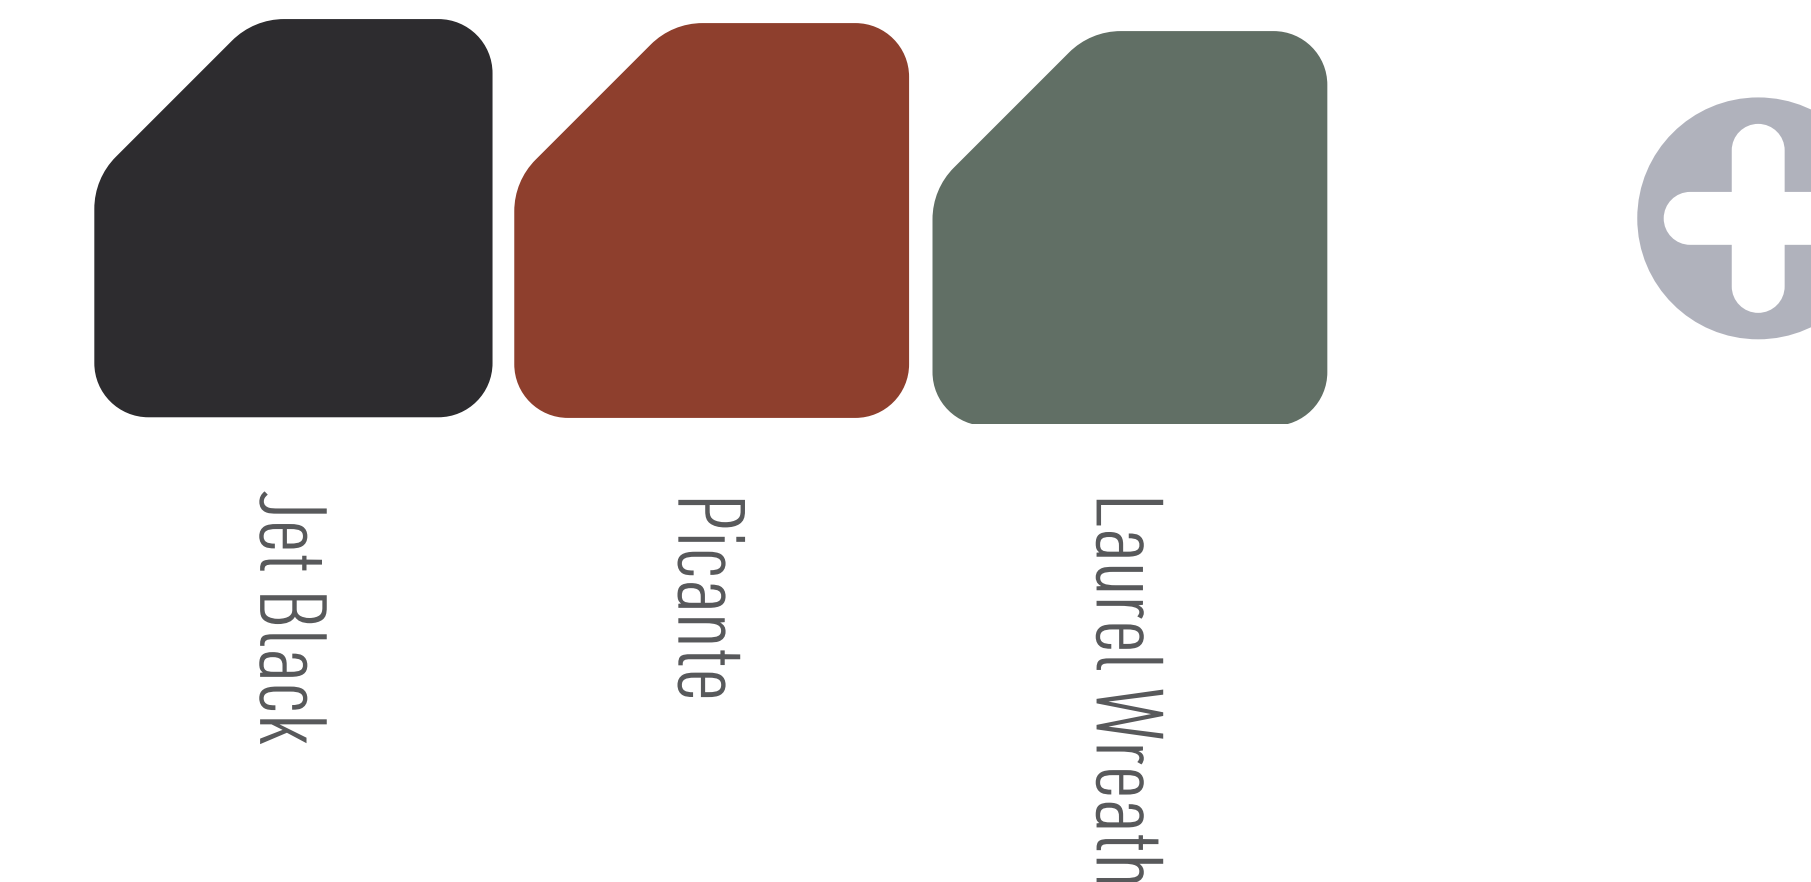

Keep gear and clothing organised, dust-free and protected with Hydraulic Packing Cubes

## FEATURES

- Built tough and adventure-ready: TPU laminated 70D ripstop nylon
- Dustproof and Splash-resistant: PU-coated zips and RF-welded seams keep the elements out (IP6X Certification for Dust Ingress Protection)
- Easy organisation: Translucent TPU panel allows you to view contents inside
- Lightweight functionality: High-tech materials provide heavy-duty performance with minimal weight
- Convenient handling: Welded hypalon grab-handles for easy handling and secure lashing

SIZES XS / S / M / L / XL

### TPU GUIDE MAP CASE

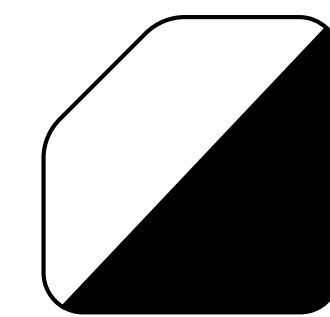

It's hard to read a wet map—keep yours dry and legible with this waterproof, fold-able and durable map case.

#### FEATURES

- Low profile “sandwich bag” closure lets you fold the case into quarters (or smaller) to easily fit into a jacket pocket.

SIZES S / M / L

# TENTS, TARPS + SHELTERS

Where high quality materials, clever functional touches and unique livability meet

## CLASS LEADING DESIGN + ENGINEERING

Our tents, tarps and shelters are characterised by innovation.

## UNMATCHED VERSATILITY

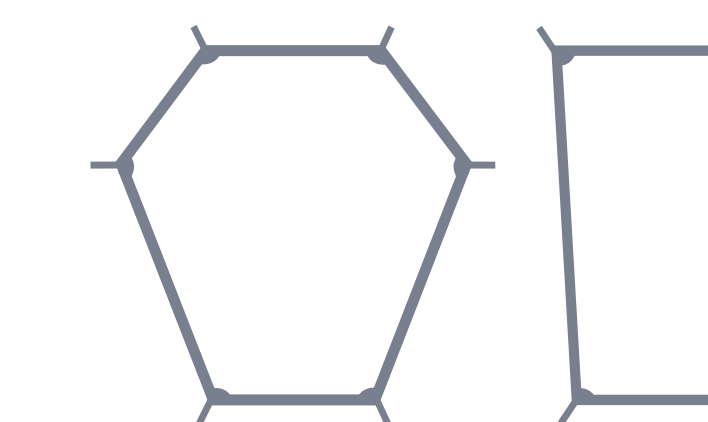

Roll up the rainfly in Stargazer mode on a moonlit night. Or tilt the Telos or Ikos rainfly into Hangout Mode, forming a semi-enclosed shelter for you and your mates. We innovated ours to provide more living space, higher doors and far better ventilation amongst many more features.

## USER-FOCUSED DESIGN

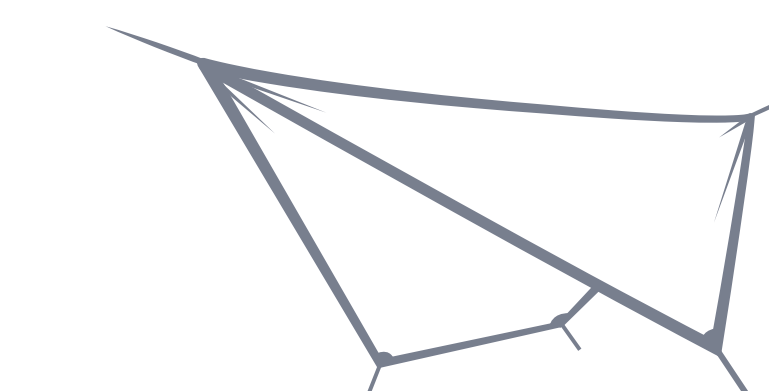

These are not 'features', or designer gimmicks. They are design elements that make our shelters easier to live with.

TENTS

TENT, TARP + SHELTER ACCESSORIES

TARPS + SHELTERS

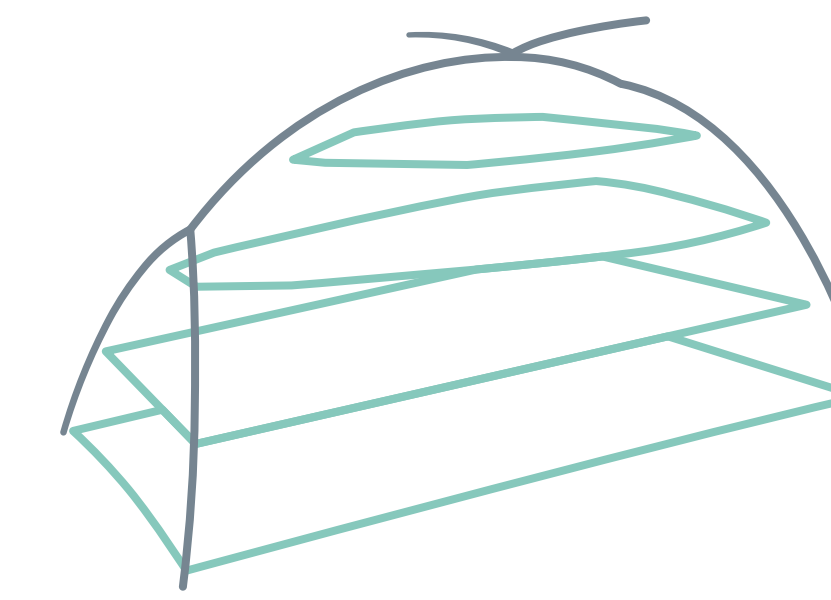

# TENTS

# ALTO + TELOS TENTS

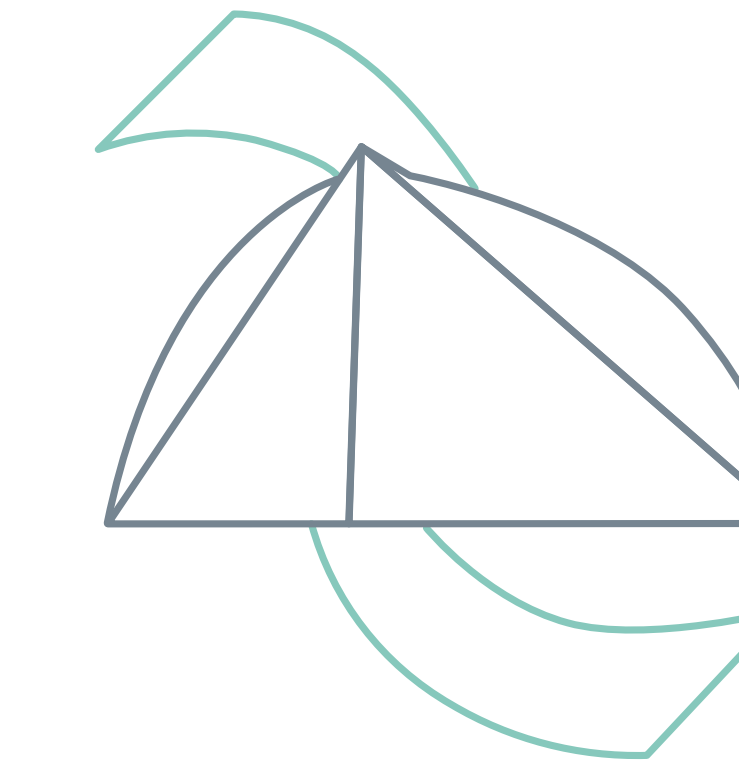

Award-winning, ultralight backpacking tents with more space, superior ventilation and unmatched versatility.

**TENSION RIDGE**  
ARCHITECTURE BY JAKE LAH

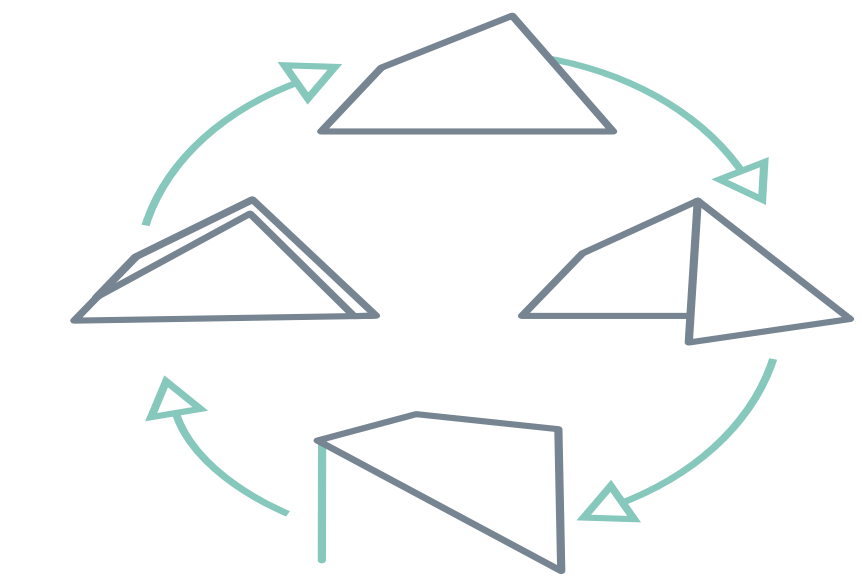

## MORE SPACE

Tension Ridge architecture delivers a better space-to-weight ratio than any tent in its class.

## SUPERIOR VENTILATION

An advanced venting system improves airflow and reduces condensation.

## UNMATCHED VERSATILITY

Multiple configuration options means our tents adapt to the weather or your activity.

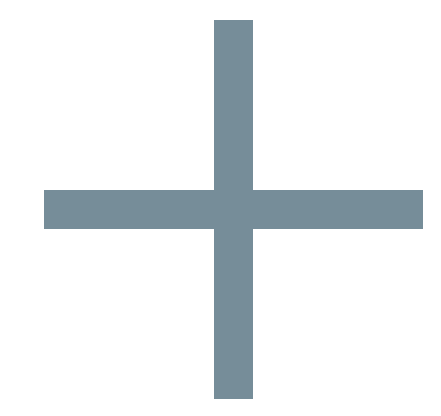

**ALTO TR**

**TELOS TR**

## REVOLUTIONARY TENSION RIDGE ARCHITECTURE

Where most tent poles angle down, the Tension Ridge angles up to achieve exceptional height and space.

# TENSION RIDGE

ARCHITECTURE BY JAKE LAH

### HIGH CEILINGS

Tall campers rejoice! Tension Ridge creates greater height across the whole tent—not just in one spot.

### VERTICAL WALLS

No aggressively tapered walls here—just plenty of room for thicker modern sleeping mats.

### APEX VENT

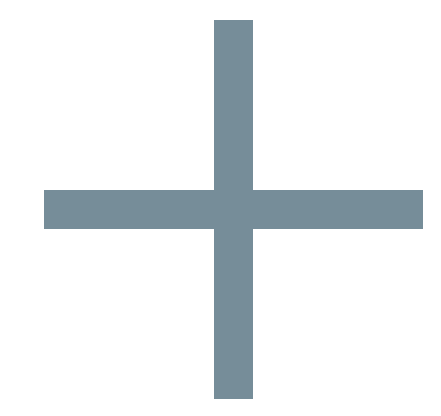

Unlike most, our Apex vent is at the highest point of our tents—the perfect position to expel moist warm air and minimise condensation.

### TALL DOORS

Get in and out of your tent with ease and enjoy expansive views outside.

OUR TENSION RIDGE TENTS FEATURE:

### HANGOUT MODE

Convert your tent's fly into a semi-open shelter—perfect for group meals, socialising and staying undercover. Featured in all our Telos and Ikos models, simply set-up with trekking poles or the Hangout Mode Pole Set (available separately).

### QUICK-CONNECT TENT FEET

Machined aluminium clip attaches and tensions the fly with one-handed ease—much stronger than breakable plastic buckles.

### STORAGE SYSTEM

Alto and Telos tents pack into three Fairshare stuff sacks to split the load—after set-up, stuff sacks transform into gear storage pockets. The Telos Bikepack tent features robust, waterproof dry bags with air-permeable eVent® bases. The new Ikos tent comes in a lateral compression storage sack for saving space in your pack, boat or vehicle.

### COLOUR-CODED DAC POLES

The gold standard in tent poles—our Alto and Telos tents combine DAC Featherlite NFL, NSL and PRESSFIT sections. The Ikos tents feature DAC MX poles

### GROUND CONTROL LIGHT TENT PEG

Lightweight, strong and versatile—our unique TriPoint tent pegs maximise grip in almost any ground.

### LIGHTBAR

Add a headlamp and secure your Alto or Telos tent pole storage sack to the apex of the tent for soft, even illumination.

### MULTIPLE SET-UP MODES

Our tents easily adapt to suit your adventure, weather conditions and weight requirements.

Telos TR2

Telos TR3

Protect your tent floor from abrasion tears and dirt with our durable and lightweight footprints.

Perfect fit for an easy Fly Only tent set-up

Comes with a lightweight storage pouch

Strong Hypalon attachment points are flexible and secure

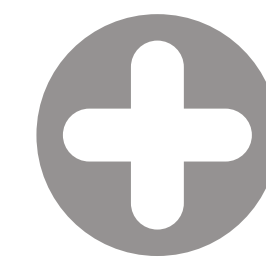

### IKOS TR2 / TR3 FOOTPRINT

Protect the IKOS tent floor or a sleeping mat from groundwater, thorns, mud, and dirt with this tough, lightweight and waterproof ground sheet.

#### FEATURES

- Sized to fit under both our IKOS TR2 and IKOS TR3 tents

### ESCAPIST GROUND SHEET

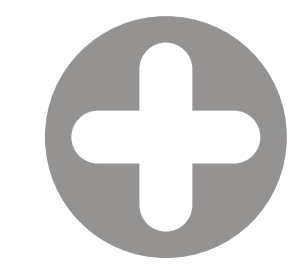

Protect your shelter floor or sleeping mat from groundwater, thorns, mud, and dirt with this tough, lightweight and waterproof ground sheet.

#### FEATURES

- Sized to fit under both our Escapist 15D Tarp shelters and our Escapist Ultra-Mesh Bug Tent

### HANGOUT MODE POLESET

Activate Hangout Mode in your Telos tent with these custom DAC Featherlite NSL poles.

#### FEATURES

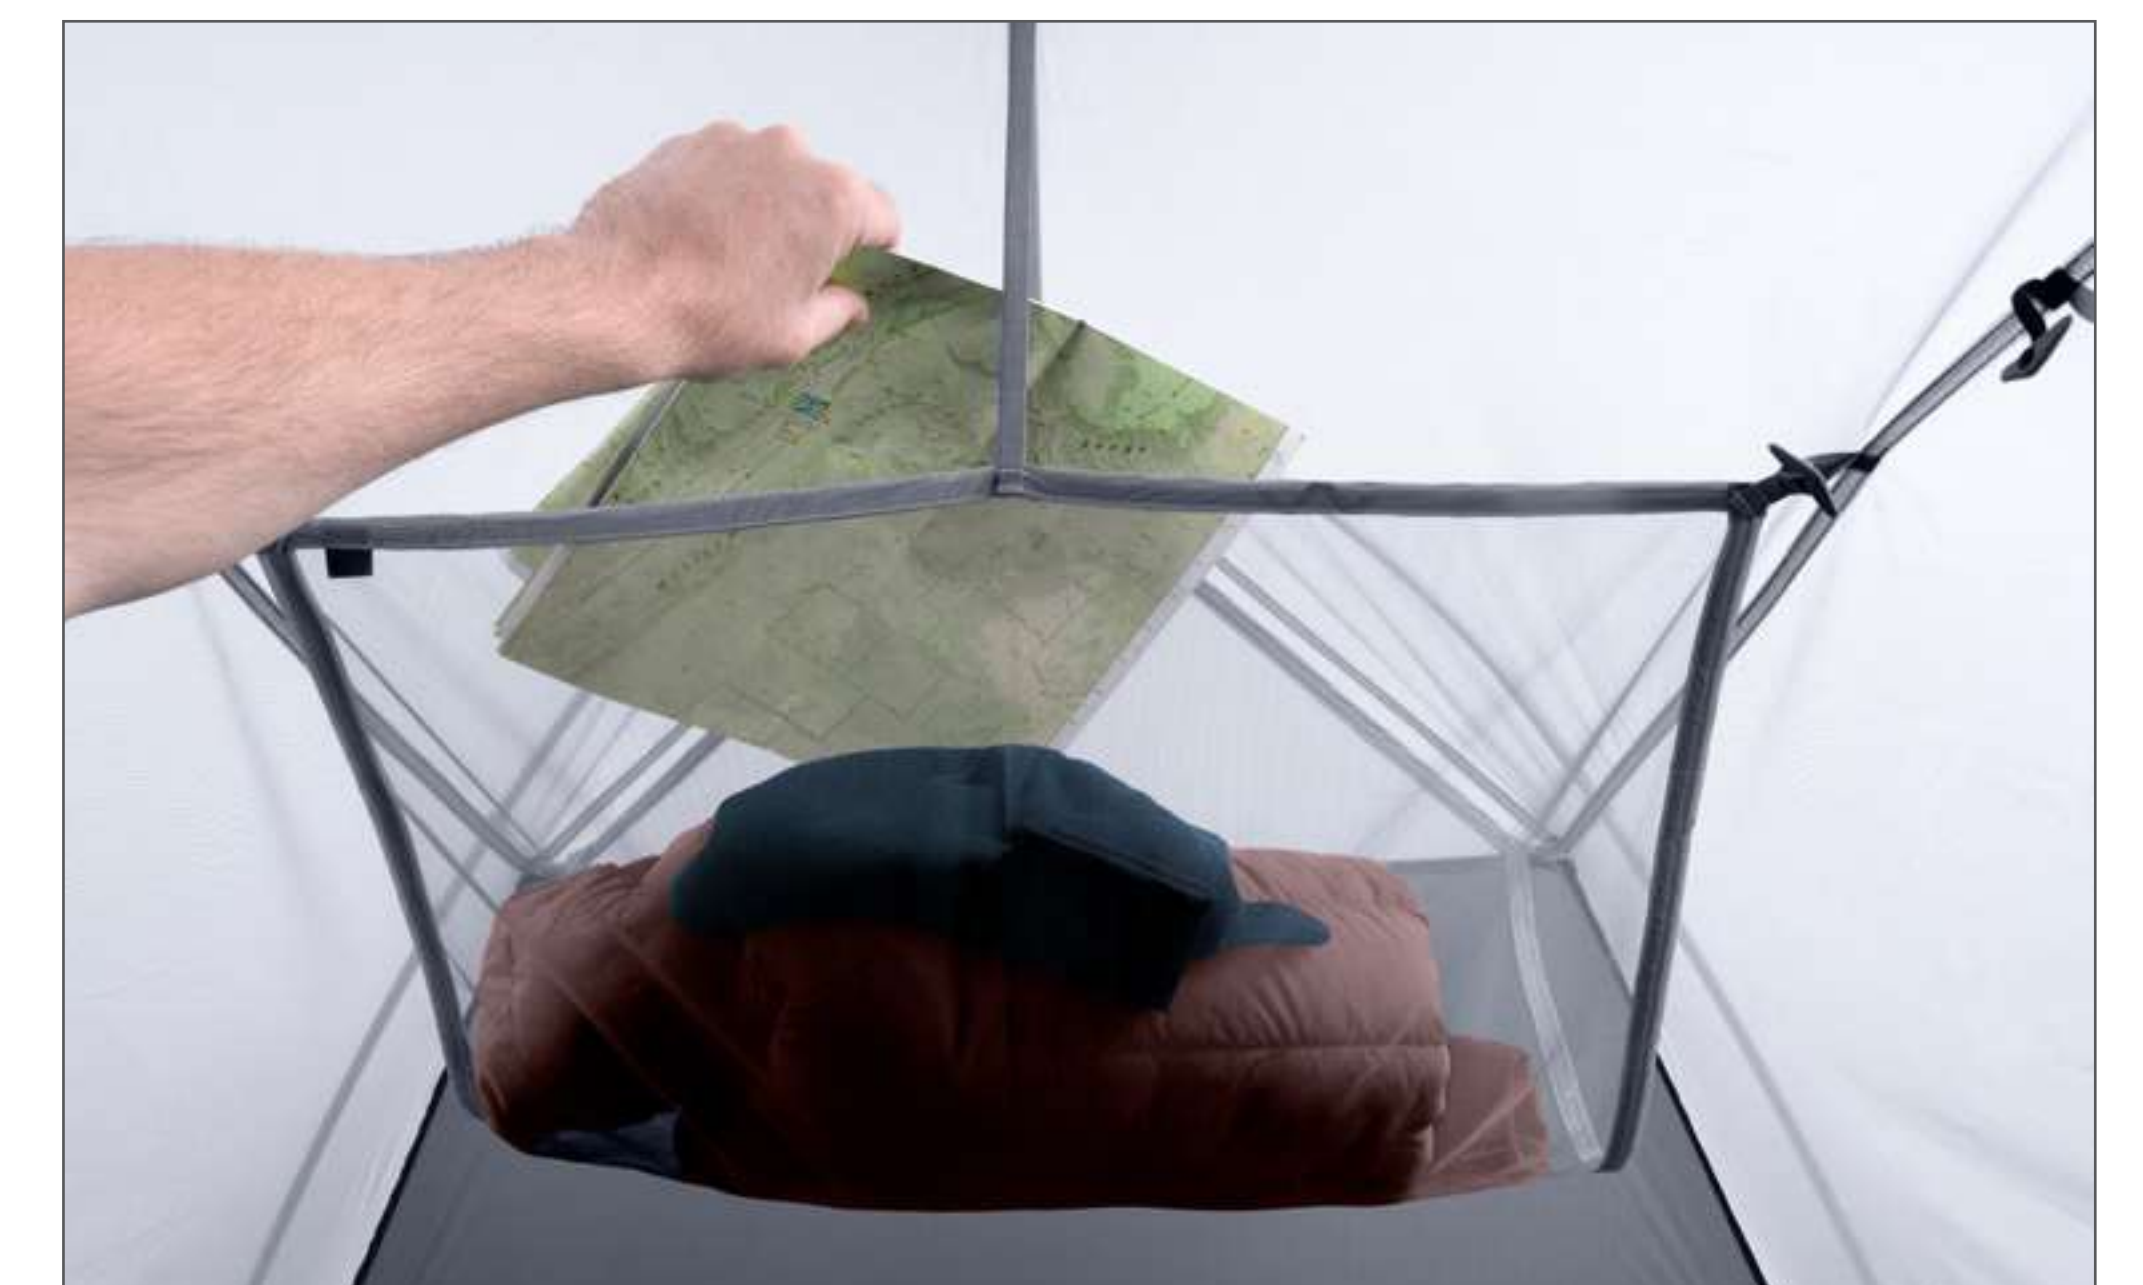

- Easy-to-use pole strap to keep the two-pole set bundled together
- Three-segment poles fold away to fit with the main tent pole set inside the Lightbar stuff sack

### GEAR LOFT

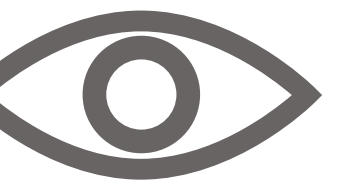

Stash gear within easy reach and keep it off the tent floor.

#### FEATURES

- Perfect for clothes when delayering before bed
- Easily attach and detach with quick-connect V-Toggles

## GROUND CONTROL GUY CORDS

Make it easy to weather the storm with our quick-connect guy cords for tents and shelters.

### FEATURES

- Quick-connect, knot-free V-Toggle attachment for ease of use
- Integrated cord length adjuster—multiple guy cords can also join together for extra length
- Tightly woven, reflective cord resists tangling

## GROUND CONTROL LIGHT PEGS

Strong and ultralight premium 7 series aircraft alloy (7075-T6) tent pegs with a unique TriPoint shape.

### FEATURES

- Rigid TriPoint design maximises grip in varied ground conditions
- Multiple notches keep guy cord low and secure in hard ground
- Reflective pull-cords for easy removal and improved visibility at night

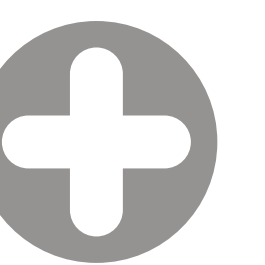

## GROUND CONTROL TENT PEGS

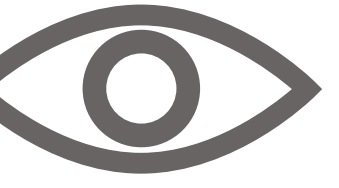

Light and strong three-sided replacement pegs for your tent, tarp or shelter.

### FEATURES

- Reflective cord and luminescent pull loop for peg extraction
- Multi-height guy points to reduce leverage on the peg
- Available as a pack of 8 pegs including Ultra-Sil stuff sack, or a bulk refill pack for individual sale

A woman wearing a tan beanie and a green jacket is sitting on a rock, looking at a child who is also sitting on the rock. The child is wearing a blue jacket and has long blonde hair. In the foreground, there is a red first aid kit with a white cross and the text "FIRST AID" on it. The background shows a vast, open landscape with mountains in the distance.

# ROOF ACCESSORIES

GRIPPY BASE REDUCES RISK OF MOVEMENT

SUPER STRONG, REMOVABLE DAISY CHAIN

## TRAVELLER SOFT RACKS

An quick and easy system for transporting different sized watercraft or even a lumber purchase from the hardware store. The unique daisy chain design lets you change the position of your tie down to be as close as possible to the sides of whatever object you are carrying. This makes for a more secure load, with less chance of slipping.

### FEATURES

- Wide footprint to disperse load on the roof
- Carries canoes, kayaks, sit-on-tops, surfboards, SUPs, skis, snowboards and other equipment

SAFETY GEAR	WATERPROOF DECK BAGS	PERSONAL
		
<p>PADDLE KEEPER</p>	<p>ACCESS DECK BAG</p>	<p>ECLIPSE GLOVES</p>
		
<p>BILGE PUMP</p>	<p>SUP DECK BAG</p>	<p>BOOTIES</p>
		
<p>PADDLE LEASH</p>	<p>PADDLE FLOAT</p>	

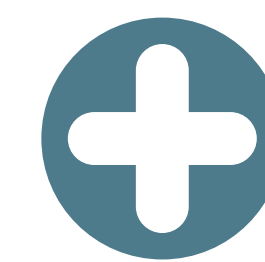

### PADDLE KEEPER

Our Paddle Keeper is the perfect solution for keeping your paddle attached to your kayak or canoe when resting, fishing or during the occasional swim. Can also be used as a fishing rod lanyard.

#### FEATURES

- Suits standard shaft diameter range of 28–32mm
- Double hook-and-loop paddle shaft attachment that doubles back for enhanced security

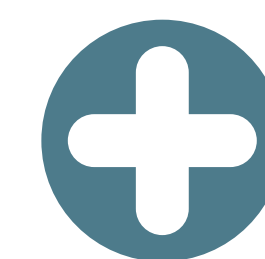

### PADDLE LEASH

Lightweight paddle leash for both sea and kayak fishing.

#### FEATURES

- Stretchy inner cord for more flexibility
- Hook-and-loop closure on durable, non-slip strap for security

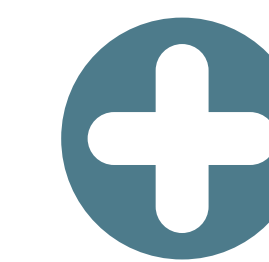

### BILGE PUMP

A must have for any open water paddler, our Bilge Pump is a quick and effective way to empty water from your kayak or canoe.

#### FEATURES

- High-volume, double action pump extracts 400ml per pump
- Full-length high visibility foam with reflective logo aids recovery

### INFLATABLE PADDLE FLOAT

This single chamber inflatable paddle float can be used in conjunction with a paddle to stabilise a kayak in the event of a capsize, making re-entry easier.

#### FEATURES

- Easy access from deck during emergency - just pull the red tab

### ACCESS DECK BAG

Our Access Deck Bag offers easy access to essentials like a camera, sunscreen, and snacks without exiting your kayak. With two different systems, it's also super simple to attach without needing to add any cord or extra attachment points.

#### FEATURES

- Curved, water-resistant zip
- A 70D drybag is also secured internally to provide complete waterproofness for the internal contents.
- Two methods of securing to your kayak: hook-and-loop strips on the base, or side release buckles on the sides

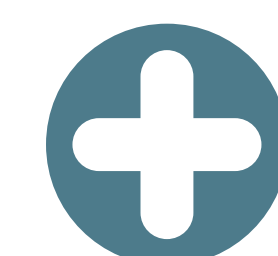

### SUP DECK BAG

While it was designed for Stand Up Paddleboards, there's also no reason to limit yourself to SUPs—this bag is equally useful on all manner of kayaks, boats, and rafts.

#### FEATURES

- Non-wicking roll-top closure
- Lash points can be secured to your craft with 3M brand self-adhesive.
- Strong durable loops for attaching gear externally

### ECLIPSE GLOVES

Grab your fingerless Eclipse Gloves for excellent UV protection when paddling.

#### FEATURES

- UPF50+ for protection against the sun
- 2mm neoprene cuff with hook-and-loop closure helps maintain flexibility in the wrist

SIZES SM / MED / LGE / XL

### ULTRA FLEX BOOTIES

Durable, low profile footwear for kayaking, stand up paddling, surfing, rafting, windboarding, kite boarding or sailing

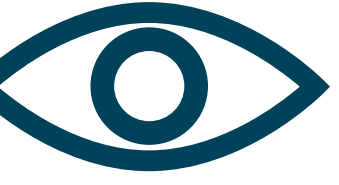

#### FEATURES

- Flexible, sensitive sole gives great feedback for technical pursuits
- Secure Y-pull strap system
