

The Alexis Series

The Alexis Series includes both a standard blade and figure blade option. All are built with K2 SoftBoot® comfort and Stability Plus Cuff to provide superior fit, support and comfort. The Alexis Series offers three closure systems from traditional lacing, one-pull Speed Lacing to the easy-on, easy-off Boa system. Available with Thinsulate™ on the Alexis Ice Boa® and Alexis Ice Pro models.

WOMEN'S

The F.I.T. Series

The F.I.T. Ice series is a performance-driven recreational ice skate that mirrors the fitness-forward success of our inline skate collection. The choice of three closure systems coupled with the K2 SoftBoot® fit, support, and comfort make the F.I.T. Ice the go-to alternative to the traditional hockey skate. Available with Thinsulate™ on the F.I.T. Ice Boa® and F.I.T. Ice Pro models.

Ravens, Raiders & Marlees

Our Youth Collection consists of three high performing durable recreational skates. All are designed with a five-size adjustable system that grows with your child season after season. The K2 Youth Collection is available in two easy-to-use closure systems designed to empower children to lace up on their own, at any age.

YOUTH

We Make The Skates, You Make The Memories

At K2 Skate, we have vibrant memories of a lifetime on the ice. Whether it's gliding across a pond in the woods, cruising the local rink or racing across a mountain lake there's always excitement in the air. These brilliant winter moments are something you will remember for a lifetime.

For more than twenty-five years, K2 has brought passion to our ice skate designs. We've led the way with technological breakthroughs like the Original SoftBoot®, the dialed-in fit of the BOA® Closure system and comfortable, supportive figure blades.

The Original SoftBoot®

The foundation of our success.

In 1993, we introduced the world's first SoftBoot® inline skate – forever changing the way performance skates are designed and built. Our Original SoftBoot® technology has led the market, providing the highest-performing level of comfort. We took this time-tested, skater approved technology off the road and introduce it into our ice collection. Enjoy the comfort.

Speed Lacing

Pull. Roll. Stow. Simple.

The K2 Speed Lacing Closure System is a single-pull design, making one pull all you need to create a snug fit. Roll up and stow excess lace in the speed lace pouch located on the tongue.

Thinsulate™ Liners

Because cold isn't cool.

No more cold toes. Thinsulate is considered "the warmest thin apparel insulation" available. In fact, when equal thicknesses are compared, it provides about 1½ times the warmth of down and about twice the warmth of other high-loft insulation materials. Double down with a sure thing, Thinsulate.

Boa® Fit System

Easy on, easy off.

Boa makes it easy to get your skates on and off quickly – and to make instant adjustments throughout the day – without ever having to remove your gloves. Give your feet some breathing room while taking a break in the warming tent, then dial in for performance while you skate.
