MOVE TO NATURAL

IMAGE: MOOD ONLY. Not final product image

This season our stories are shared through the lens of our natural progressives - those living in our natural neighbourhoods.

Inspired by our human instinct and the desire to stay connected with each other and nature, we explore these changing times through the daily moments experienced in isolation and together.

Take a journey into a new normal, connect in new ways, experience new moments that restore, renew and remind us what it means to be human.

Slip away, go off-grid, appreciate your own backyard, walk barefoot in the park. In times of change realise the importance of celebrating the simple things, the small moments that matter, the natural comforts and those absolute natural essentials that keep us connected to the things and places we love.

Take time to connect.

Move to Natural.

icebreaker

Meet our design targets:

The natural progressive consumer mindset.

The Natural ADVENTURER

Motivated by wild places and living an active healthy exuberant lifestyle, the Natural Adventurer values connections to nature, diversity in their activities and participation over competition. They appreciate wellbeing but love the exhilaration of the adventure, challenging themselves in a variety of activities that connect with them and living a naturally adventurous life.

The NATURAL Weekender

Nomadic by nature, experiencing the journey is as important as the destination for the Natural Weekender. Their internal values and pursuit of following the path less travelled ensures they don't miss a moment, to create a moment. Community and being on the right side of the future means they embrace all that is slow and good, their lust for treading lightly and exploring the planet with consideration is what fuels them constantly.

The Natural LIFESTYLER

Connected and collaborative, the Natural Lifestyler lives every day with a conscious connectivity to living a more natural sustainable lifestyle. Closeness to friends and family and the local area is important to them. They seek purposeful, useful product in their life underpinned with good design. They are curators and collectors of good stuff, renewing and restoring all they need. As early adopters they don't see sustainability as a compromise, but a necessity in everyday life.

How we build our collections –

with versatility & simplicity.

NATURAL Performance

From our Natural Adventurers' to the Natural Weekender wardrobe, the performance collection embodies assortments for long days out on the mountain and those shorter adventures on your doorstep. Made from natural fibers, with performance functionality and designed with versatility in mind. Delivering comfort and style with a no compromise approach on the planet.

NATURAL Essentials

Essentials are just that, the very essence of the icebreaker wardrobe. The most reliable, hardworking, natural styles that merge effortlessly with our extended collections. It's where you'll also find our very best 100% styles in our priority categories of Base Layer, Tees, Mid layer & Knitwear.

These styles are designed for wearing over and over again and become the foundations of the Natural Performance and Natural Living icebreaker collections

NATURAL Living

From lazy Sunday coastal walks to city hopping weekend breaks, Natural Living creates assortments for the casual and astute urban lifestyles of those living and working in the city or on the fringes. Designed for a life on the move, for work, travel and commuting in the city.

STORIES TO RECONNECT,
RESTORE AND RENEW.

IMAGE: MOOD ONLY. Not final product image

Remember the feeling of release, of freedom, of collecting moments and experiences in the natural outdoors.

GO OFF GRID is a calling to all those Natural Adventurers & Natural Weekenders that are yearning to get back out there, seek the fresh air and find 'no direction' destinations, whilst being more consciously connected than ever before.

GO OFF GRID is not just about adventures, its about mental wellbeing and physical enjoyment.

So whatever your destination or adventure; long-haul, or an urban 'micro-cation', this capsule is designed to support trading lightly and doing more with less as you head off-grid to restore for a while.

The story features icebreaker signature 100% merino & 100% natural cool-lite styles. Effortless, lightweight and breathable, everything you need and nothing you don't.

Move to natural.

LEADING WITH SIMPLICITY. THE MOST NATURAL WARDROBE ESSENTIAL. → TEES FOR ALL. FOR GOOD. FOR BETTER.

Tees for

Good

“A T-SHIRT IS THE MOST UNIVERSAL OF ITEMS IN OUR WARDROBE TODAY.”

@laurajanesegegin

@andrewj.steel

In a world filled with stuff and more than ever purpose being needed, the icebreaker tee collection delivers a benefit way beyond functionality and performance. It delivers a sense of wellbeing and consciousness.

A t-shirt is the most universal of items in our wardrobe today, be it the very special one, the old favorite, the worn-to-death or the can't-live-without it tee. Whichever it is, a tee is more than a garment, is a trusted and reliable go-to and carries many memories and stories.

SO, WE LOVE TEES. FACT.

They are comfy, make us feel good and are just plain useful.

Which is why we believe all good tees should have a no compromise promise. No compromise on style. No compromise on function. No compromise on the planet.

This is our most natural collection yet, and while we still have work to do, this season we are happy to share the 100% natural, 100% merino fiber and nature dyed collection.

Move to natural.

Our color palette.

Taking inspiration from the rich hues and natural imperfections we find in nature, the SS21 color palette reflects warm, dry dappled sunlight and the lush green vegetation of our New Zealand backyard.

A system of layers.

The bigger the number, the warmer you'll be.

icebreaker pioneered the world's first natural layering system – designed to give you the freedom to enjoy and be inspired by your adventures in nature, whatever the conditions or season.

Layer your icebreaker garments to create a unique climate that works next to your skin.

Our natural performance innovations.

Cool-Lite™

A lightweight and breathable fabric designed to wick moisture away from the body. Silky-soft merino and TENCEL®, sourced from sustainable eucalyptus plantations, combine to create a fabric that naturally regulates the body's microclimate.

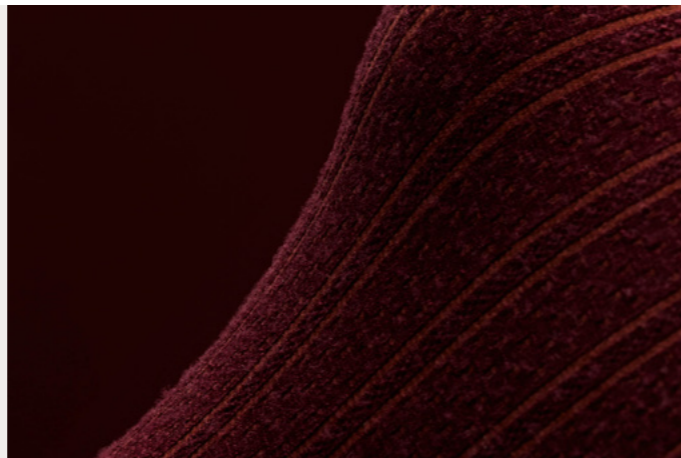

Merino-Linen

Merino-Linen combines two natural performance fibers – premium merino wool and Linen – delivering lightweight durability and breathability on the hottest of summer days.

Seamless

A soft merino blend in a continuous knit, seamlessly stretches and breathes with the body, wicking away moisture. Heat-dumping zones are integrated into the fabric with fewer seams for maximum comfort.

BodyFitZone™

BodyFitZone™ is our most advanced temperature-regulating natural technology, designed to trap heat where it's needed and release it when working at high intensities.

RealFleece™

Superfine merino wool fibers are brushed to create a luxuriously soft natural fleece that warms and breathes with the skin.

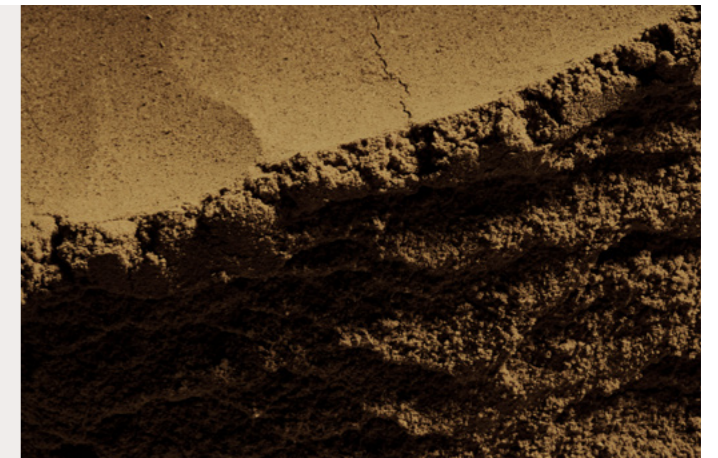

MerinoLoft™

Lofted wool insulation warms without weight and is a natural alternative to synthetic down. A durable, water-repellent shell is filled with natural merino-fiber batting, with a lining in 100% merino for breathable softness.

Nature Dye

Natural hues sourced from sustainable crops add depth and authenticity for a lived-in aesthetic. Renewable plant pigments are applied using 80% less water than traditional dyeing methods.

Women's

Base layer

Sitting softly next to your skin, natural base layers move and breathe in harmony with your body for comfort all day long.
