

MOVE TO NATURAL.

AW20 WORKBOOK

icebreaker

AS HUMANS, WE HAVE THE POTENTIAL TO REVERSE AND REDUCE OUR IMPACT ON THE PLANET. WE ARE INSPIRED BY THOSE PEOPLE WHO CHOOSE NATURE AND WHO WANT TO DRIVE CHANGE FOR THE BETTER.

MOVE TO NATURAL IS THE START OF A GLOBAL MOVEMENT, ENCOURAGING, EDUCATING AND INSPIRING US ALL TO GET BACK TO NATURE.

"We have this strange unbreakable connection with nature. Nature captivates and repels us. We admire its beauty, but fear its force.

We build roads, buildings and cities to remove nature from our landscape, yet at the same time, we dream of escaping back to it.

Through photography, I'm lucky enough to travel far corners of the globe and share my experiences with others. My job is often to turn wild and untamed nature into a 2D image.

Lately, I've wondered if that's doing justice to nature. I want people to look at things differently. This doesn't just mean shocking people with images of trash-filled sea birds or littered oceans and waterways. It's more than that.

It's the soft erosion of our soils, the perfectly sculptured cracks of the deserts, the melting blood of the glaciers. It's the true irony of beauty.

It's not about preaching or guilt-tripping, it's about the power of knowledge.

We need people to re-examine their perceptions and individual choices and see the effects they have on our natural places, particularly the things that might not be so obvious.

Icebreaker presented me with the challenge of taking a single photo that would allow us to view our relationship with nature through a new lens."

CHRIS BURKARD, AWARD WINNING PHOTOGRAPHER

A NEW PERSPECTIVE.

MOVE TO NATURAL.

“THE CHALLENGE WAS SET TO TAKE A SINGLE PHOTO.”

“They asked me if I would come to the home of icebreaker in the Southern Alps of New Zealand and shoot a photo to inspire us to look to nature. I told them I wanted to do something powerful, not just the expected.”

**CHRIS BURKARD,
PHOTOGRAPHER**

“The landscape was incredible, but I couldn't help but feel unsatisfied. It was frustrating, all this effort, all this beauty and yet the glacier, lake and landscape images were predictable. We needed to look differently and take a step back.”

"Then it hit me. The lake was in fact new, only 30 years old. Created from the run-off from the ever melting glacier."

"THIS BEAUTIFUL LAKE WAS THE LITERAL OPEN WOUND OF THE GLACIER."

SOCKS

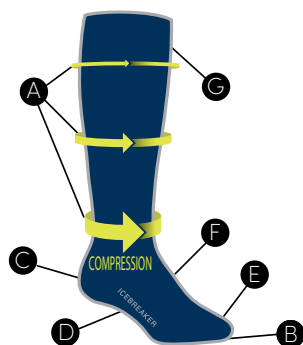

Naturally designed to work in harmony with
your body to help you go the distance.

COMPRESSION AND SKI LINER

COMPRESSION CONSTRUCTION FEATURES

- A Half cushioned graduated compression** for increased performance
- B Anatomical toe box** for unique left and right fit
- C Reinforced heel and toe** for durability and strength
- D Instep support** for stability
- E Seamless toe closure** to reduce bulk and prevent blisters
- F Breathe zone** for improved ventilation with additional padding on medium cushion socks
- G Comfort cuff** wide welt for comfort

HOW DOES GRADUATED COMPRESSION WORK?

Graduated Compression socks apply pressure to the leg – the pressure is greatest at your ankle and reduces further up your leg.
